CALORX TEACHERS' UNIVERSITY

(State Private University Established by State Legislature of Gujarat Act No. 8 of Year 2009)

CALORX TEACHERS' UNIVERSITY

Calorx Teachers' University was established by Calorx in 2009 with a strong commitment towards excellence in research and innovative practices in higher education. CTU is a State Private University established by State Legislature of Gujarat Act No. 8 of Year 2009. The core of the University is an incessant quest for diversity of practices and creating scholars with global standards and skills.

CTU is an institution of Calorx which has a distinguished record in the field of Education. The University envisages developing a genre of multifaceted professionals, who will not only excel in their fields but also facilitate, counsel, empathize and guide the future generations of the country by using the latest technology innovatively and creatively. CTU has been networking with temples of learning, both in India and abroad, to train professionals par excellence.

In the short time span since its inception, CTU has maintained high academic standards. It is CTU's constant endeavour to create a talent pool of enlightened professionals, capable of revitalizing the educational, economic, financial and social scenario in India.

Vision

Being Centre of Excellence in Higher Education.

Mission

- Prepare professionals comparable to the best in the World
- Lead India in Research and Development
- Be Resilient in Time and Space

International Linkages

The University has signed MOUs with University of West Georgia (USA) and International University Network (Germany) to facilitate student and faculty exchange, higher studies and curriculum development.

Evaluation Process

The University follows the latest in examination system. Continuous comprehensive evaluation is followed to evaluate the students. The assessment procedure includes testing of Higher Order Thinking Skills (HOTS) in students. Students are evaluated on the basis of analytical, critical, synthesis and similar type of skills. The students are evaluated in the following areas

Semester End Exam

An exam is conducted at the end of the semester in every subject to test the students and it constitutes 50 % of the entire evaluation process.

Semester End Presentation

The students presents their learning at the end of the semester in a snapshot through charts / PowerPoint presentations / teaching aids to jury members (faculty) and face questions on their presentations. This constitutes 10 % of the total evaluation system.

Assessments of Visit Report

The students submit a report of their visit to their faculty in a set rubric. This is evaluated and constitutes 10% of the evaluation system.

Portfolio

The students maintain academic as well as professional portfolio. This helps them to be organized and present their learning in a systematic way. This file is evaluated at the end of the semester and constitutes 10 % of the entire process.

Jury Presentation

In each semester, Students showcase their integrated learning about different subjects and activities.

Placement Cell

The placement cell of the University networks with different schools and organizations to find an appropriate placement for its students. It manages the whole process of placement right from identifying organizations, inviting them to the campus, providing students the necessary information and guidance, coordinating and follow up.

Consultancy / Continuing Education

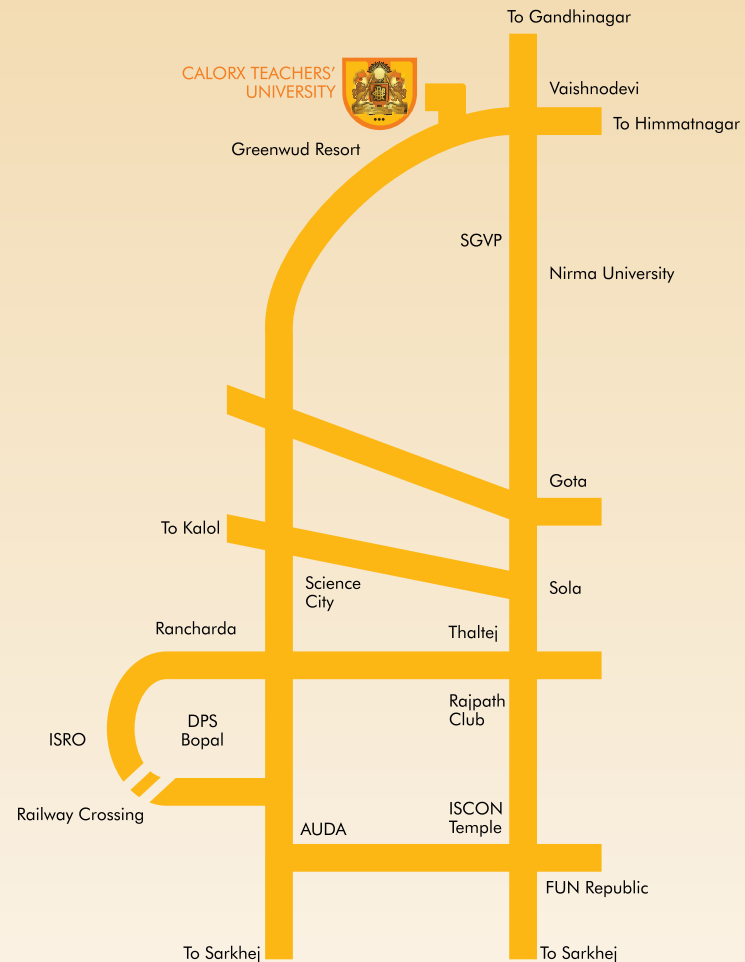

The University believes in sharing its leanings with various schools/organizations for the betterment of learners. The University provides consultancy in areas like: Professional Development of Teachers, Infrastructure, Process and Systems Development of Schools. The university organizes In Service Teachers' Training Programmes and Seminars for the School Teachers and Professionals working in the field of education.

About Calorx

Calorx is a non-profit, professionally managed, self-sustaining, autonomous institute working primarily in the field of education. Its main objectives being Excellence in education through innovation and absorption of latest techniques and technology. Calorx also aims to create and manage a pool of resources for relief and rehabilitation of underprivileged and special children. It has grown by leaps and bounds adding one institution after the other. Its aim being no child should be deprived of education; it caters to all strata of the society with a school to choose from the many.
