We have embarked on a mission that envisions a new dimension in learning....

It is a paradigm that connects holistically the individual, institutional, national and global transformation process.

We do it by using all that we know, all that we have and all that we seek, reach and experience with knowledge, learning and education.

Our Mission

To provide quality, professional, effectiveness and recognized for the local, national and International communities for the purposes of student's educational development and excellence in career enrichment opportunities.

CAREER POINT will establish strong relationships with employers, industries, employment services, the local and wider business sector and other relevant quality controlled organizations.

Our Vision

To be a reputable and creditable CAREER POINT Higher Education Institutions aims to produce quality Diploma Holders, Graduates, Post Graduates & Doctorates at the highest quality & competitive level in line with the International education philosophy.

CAREER POINT develops students by providing an environment for personal growth, opportunity, knowledge, exposure, personal attention and career direction. This is in line with our nation's inspiration, which is to build a generation of professionals catering to a knowledge based economy to meet global needs. CAREER POINT has also continued its efforts to strengthen the curricula and at the same time, to explore research areas that will significantly contribute to the development of the nation and wider business quality controlled organisations.

Our Brand Essence

We can sum up what the CAREER POINT UNIVERSE stands for in three words:

- International
- Interdisciplinary
- Innovation
- Excellence

These three founding principles still hold true as Career Point Group approaches 20th anniversary in education.

Brand Proposition

CAREER POINT has developed its brand proposition around five keys themes:

- Research intensive and accessible
- Uniquely international
- Student-focused
- Friendly and supportive
- Healthy and sustainable
- Delivering excellence

These words are not intended to act as slogans or to be reproduced word for word; they can be changed to demonstrate specific attributes and strong unique selling points so they are relevant, as long as they remain consistent with the brand proposition.

Brand Values

- Academic excellence
- Lifelong learning
- Enhanced employability.

CP Education System

Welcome to Career Point Higher Education Institutions

We are really pleased that you want to learn more about the great range of full-time professional and vocational courses at one of CAREER POINT Higher Education Institutions as follows

- ◆ CAREER POINT UNIVERSITY, KOTA, RAJASTHAN
- ◆ CAREER POINT UNIVERSITY, HAMIRPUR, HIMACHAL PRADESH
- ◆ CAREER POINT TECHNICAL CAMPUS, RAJSAMAND, RAJASTHAN
- ◆ CAREER POINT TECHNICAL CAMPUS, CHANDIGARH

At the higher education institutions, we have an IIT & IIM based education system, internationally-oriented, research-intensive university with a commitment to excellence in research and career-led teaching, to the personal development of all our students, and to offering an outstanding campus-based student experience.

We provide the best range of qualifications in engineering & technology, management, computer application & technology, research, basic & applied science, vocational, legal studies etc.

Our courses are chosen to get you on appropriate learning experience, expertise, rewarding qualification & a successful career in future. Thousands of

young people have already made CAREER POINT Higher Education Institutions their first choice for their qualifications that get results. It get started with guidance in choosing your career and get carried further with benefit from professionals & experienced academician. They tell us that they chose CAREER POINT for its superb range of courses, the high level of support it provides to students and because of facilities that are unrivalled in the area.

The brand new building contains state-of-the-art facilities have been improved still further this year, with the opening of our new-look campus. The new building complements the very high standard of resources we offer our students.

I have a clear advantage... I can complete my B.Tech(CS) even before six months and I can utilize that time to prepare for my placement interviews...

Why

Career Point

In line with our commitment to provide a truly conducive environment for learning, CAREER POINT offers a wide range special care, welfare and support services to make the college life of students not only a worthwhile academic learning experience but also one that is socially enriching for students. Students will be able to adapt and acclimatise quickly and effectively to the new environment. At all the Career Point Campuses, specialised student services units are established to focus on the following areas:

Student Support

All students at CAREER POINT would be given a “academic plan” throughout the semester and their progress would be monitored accordingly. Students who encounter difficulty in coping with their studies are also placed under special care of the mentors who provide extra tutorial and academic counselling sessions.

Counselling & Caring Guidance Service

CAREER POINT offers individual counselling services to students who require personal advice and guidance in the areas of emotional health, stress, studies, time management, relationships and more.

The Campus

All CAREER POINT campuses are situated in a serene, pollution free and in less populated area. There are excellent accesses by bus and rail services which are direct and frequent. The CAREER POINT Higher Education Institutions building offers appropriate sized and well-equipped classrooms, together with a common room and light refreshment facilities.

Campus Environment

The CAREER POINT Higher Education Institutions is ideal & conducive for learning. Facilities at campuses are very comfortable & easily accessible place for students to concentrate on their studies

Accommodation & Refreshment Area

Finding a place to think, to eat, to relax, to sleep and to study, what could be more important?

Affordable & comfortable student accommodation alongside canteen & cafeteria is available in all CAREER POINT campuses. More over, locally there are many culturally diverse food and entertainment outlets. You will be within close proximity to city centres where you can take advantage of all the facilities the cities have to offer, including prospects for part time jobs.

Teaching Rooms & Laboratories

At all the CAREER POINT campuses we have state of the art facilities.

- Computer laboratories having more than 200 up to date computers with TFTs, networking, multimedia facilities and high speed internet.
- Teaching rooms to deliver lectures with OHP facilities.
- Library with study and reference guide.

Placements

Utmost importance is given to the placement related activities to ensure that all successful students receive suitable placements. We conduct mock interviews and provide soft skills training before the formal placements. Once our students get prepared we would conduct formal placement programmes where companies visit campus and recruit students.

Academic & Career Programs at Career Point

We aim to transform knowledge into ingenious solutions in science, technology and management with some of the most practical methods of imparting knowledge. We educate students on both professional development and degree-awarding courses. They come either to enhance an already chosen career, or to move to a new one.

We bring a wide array of multidisciplinary skills to address a number of fields. Most courses have a challenging but fun group project where students will aim to resolve real world problems. The emphasis is on problem solving, teamwork and application of knowledge. The design and execution of courses makes them truly interactive. The future belongs to those who understand the possibilities and promises of a globally-integrated world and who are prepared to succeed. We have created a student centered learning environment where students with talent, ambition and drive transform their dreams into reality.

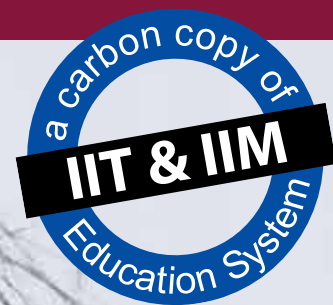

Major Study Areas

charged

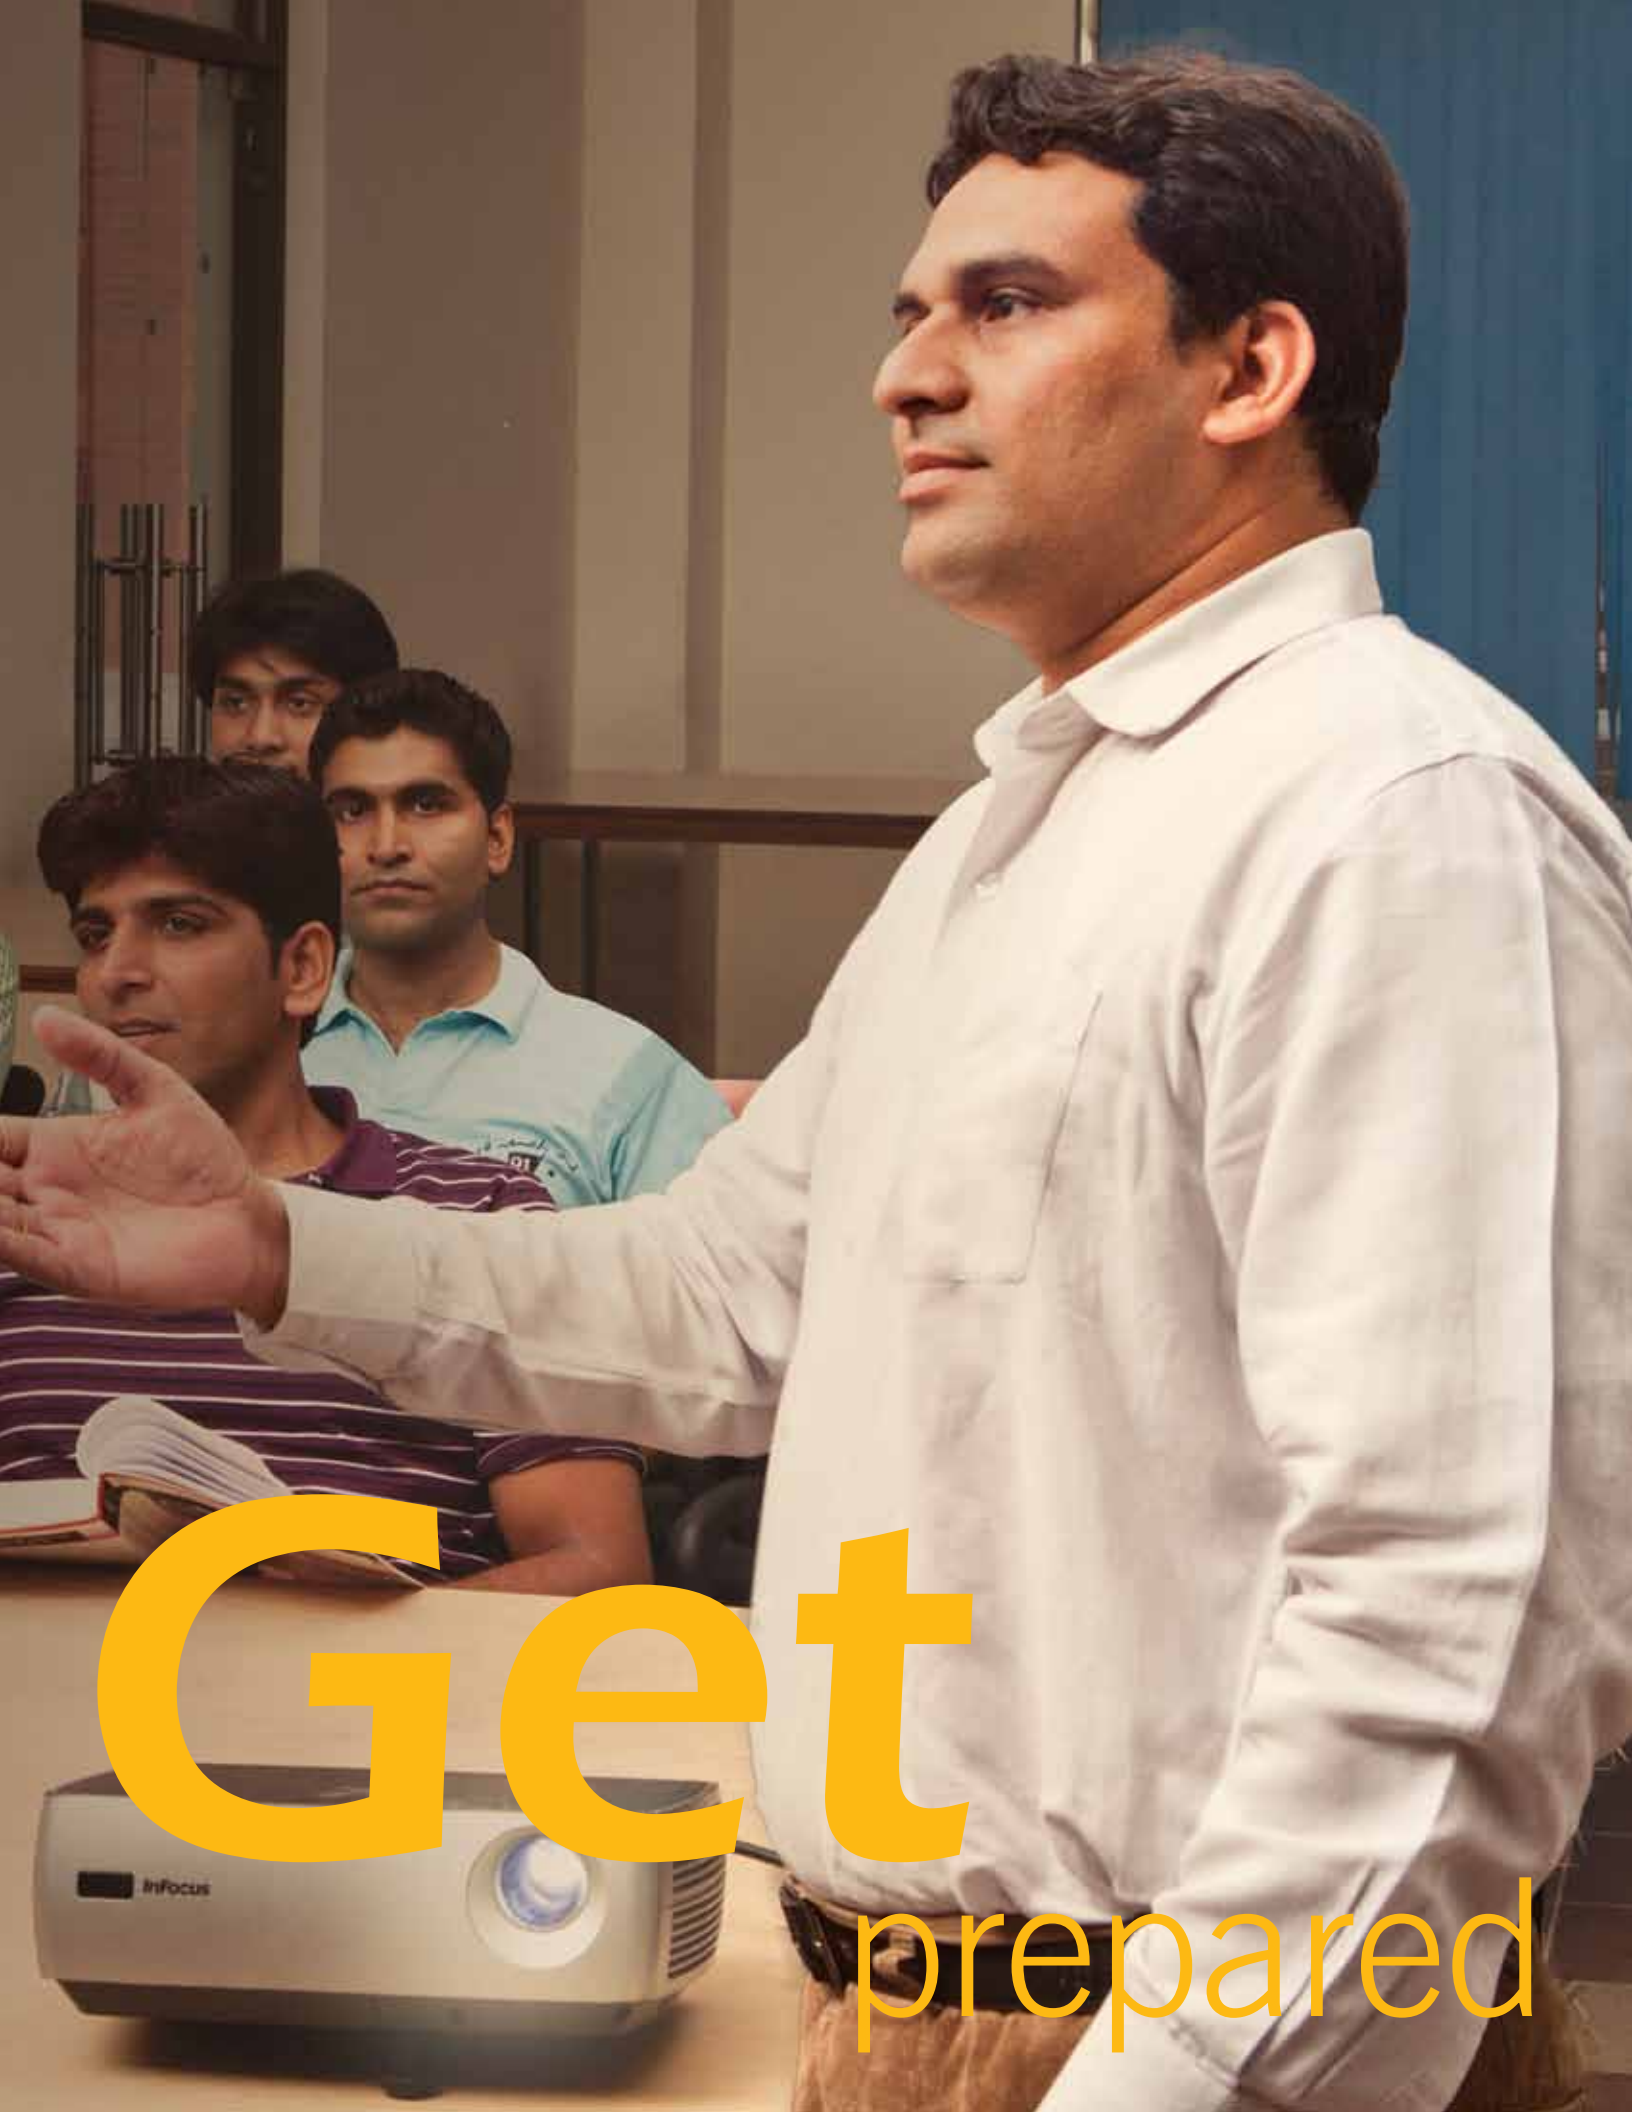

Complete schedule was provided on the very first day of the session and never failed to meet the same.

Teaching Methodology

Education is our passion and cutting edge in teaching is an indication of our desire to focus on practical application:

- ◆ We provide industry integration in our courses on a local and global scale, complete research projects and provide our students access to best learning
- ◆ Course steering committees include external representatives from key organisations to ensure our programmes continue to be relevant to the 'real world'
- ◆ Industry practitioners and alumni members lecture on courses
- ◆ Our courses are informed by the industry research and involve both individual and group research projects which may be in collaboration with industry. These projects students to put their specialized skills and knowledge into action in a 'real-world' setting.

Get
prepared

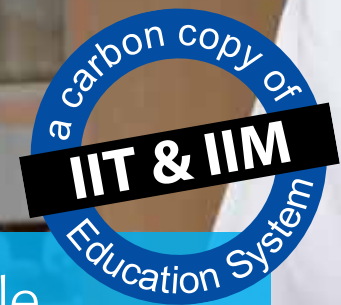

Learning Cycle

Our academic professionals use creativity, ingenuity and academic entrepreneurship to make leaders & professionals for tomorrow.

- ◆ Class room teaching is aimed to provide in depth knowledge of the subject to the students.
- ◆ Theoretical teaching is complemented with assignments and industry integrated training.
- ◆ Material provided to the students: text books, application and case studies.
- ◆ Audio visual aides add to the assimilation.
- ◆ After each lesson taught in the class, the students are given assignment and project work based on current and relevant industry application.
- ◆ Assessment of the student is been done on the basis of daily assessments, presentations and the evaluations conducted for the particular competency after finishing the unit/ module.
- ◆ The assessment is based on semester courses with credits of learning and final CGPA based evaluation.

CP Education System

I am having access to the best possible careers guidance, information, education, training through experienced academics.... after studying the B.Tech.(CSE), I would certainly benefit from IIT based education system making me able to achieve my dream goals...

Get
learned

CPU gives me opportunity to do Re-Major & Summer Courses to keep abreast myself with my peers.

THE FACULTIES : Content and Resource Facilitators

Our faculties are drawn from premier institutions and are trained by the best in the field. It is ensured that faculties keep abreast with the latest in the field of academics and its application in the industry.

We believe that the students experience is determine greatly by the quality of teachers they have. To ensure high quality of faculty members, our leadership team has handpicked the teaching staff. Our faculty members have distinguished academic achievements to the credit and are actively involved in teaching, training, research and consultancy. It also draws from a pool of expert faculty, comprising of specialists from industry, business, government and research institutions ensuring the mix of real world experience and high academic achievement.

Get
placed

You will build necessary skills, gain enough knowledge & experience by working on various projects, attending workshops, industry visits, experts talks & so on...

Placements

Utmost importance is given to the placement related activities to ensure that all successful students receive suitable placements.

For this we have several placement activities. These activities are designed to help students in a very personalized manner. We have special communication skills and personality development sessions. As a part of placement efforts, placement teams visit potential employers and consultant and apprise them of the level of knowledge and practical application skills acquired by our students in their respective area of specialization. The profile of the students seeking placement assistance are made available to the prospective employers. We organize campus interviews for students by corporate bigwigs and well-established companies in all sectors.

We conduct mock interviews and provide soft skills training before formal placements. Once our students are prepared we conduct formal placement programs where companies visit campus and recruit students.

Student Assistance Cell

With You – For You and About You Always

Student assistance cell and support services are focused on consistently improving your learning experience. Student welfare centre and facilities on campus are dedicated to providing services that meet the unique needs of students. Each one at Career Point has a passion to identify with you in your success and in times of challenges.

While pursuing my MBA, I organised events, participated in workshops, worked on various projects... So I acquired the knowledge & skills, I need for my future...

Get involve

Activities & Clubs

Student life is more than just books and examinations. We encourage students to participate in as many out-of-classroom activities as possible. Most students form informal clubs based on their area of interest and contribute to a vibrant campus life.

At the Career Point, we are committed to supporting our students' development: intellectually, physically and emotionally. We understand that student success is not solely defined by grades, which is why Student Life at the Career Point serves as the hub for a variety of student-focused programs, services, facilities and operations which support the academic and non-academic development of our students.

Co-curricular and extracurricular activities are planned and executed through a number of associations, clubs, societies and students' chapters of professional bodies. They are owned and managed by representatives of students and are monitored by the faculty in-charge.

To be a successful person, you need to learn Life Skills during your college, few of which are

- ◆ Planning & Execution capabilities
- ◆ Team work capabilities
- ◆ Exposure to different facet of life including culture, art, sports and management etc.
- ◆ Holistic development of personality
- ◆ Man management skills
- ◆ Development of Responsible attitude

To develop team spirit – we are divided in to Houses...now we participate in the intra-house completion first then to inter house and ...total marks of various clubs of a board will decide the trophy winner...

Sports & Recreation

Want more energy and better concentration? Then getting active is the answer! At Career Point we believe staying fit not only benefits your body but also your mind.

Sports and recreation activities plays a vital part in students overall development. At the end of their hectic day schedule, our students get to refresh themselves by indulging in outdoor games like football, cricket and hockey. For those who prefer the indoors we have facilities for table tennis, chess and carom etc. Students can also use health clubs and other facilities.

- ◆ Football and cricket Ground
- ◆ Swimming Pool
- ◆ Health Clubs
- ◆ State of the art courts for Basketball, Squash and Volleyball
- ◆ Indoor Games Facilities like table tennis, Chess, Caroms etc.

Get enhanced

At CP, you can specialize in more than one discipline. Like I will get major degree in B.Tech. (ECE) and Minor in Finance.

Get ahead

Campus

We pride ourselves on our dynamic and state-of-the-art facilities which included classrooms equipped with latest teaching aids, library, the latest computers & other laboratory equipment for our designs, the most up-to-date study material, excellent students' amenities and much more. Residing on campus offers you a sublime and serene environment conducive to learning. Our hostels and student facilities are conveniently located within an easy walk to classes, the library, computer labs and other hobby and club activities.

When you live on campus, you can attend a sporting event, spend quality time with your friends or participate in a late-night academic activity. By living on our campus you will have many opportunities to enrich your experience through many activities, as well as have access to resident staff to help you in your career pursuits. In the campus you will have access to large academic resources. Study skills and time management presentations, easily accessible tutors and advisors, opportunities to interact with faculty and support for students in their classes are all part of the campus experience which will help you to excel inside and outside the classroom. Living on campus is the complete CAREER POINT experience.
