Start your future today

DIT is committed to provide a learning environment that promotes a passion for excellence in professionalism and enduring knowledge which stimulates creativity and innovation consistent with the country and regional realities. We embrace competence based education and training approach. The Institute is fast establishing itself as the ideal tertiary institution for the holistic students' development.

We are focused on nurturing the growth of academic excellence and instilling the importance of scientific, engineering skills and entrepreneurship.

DAR ES SALAAM INSTITUTE OF TECHNOLOGY

STATEMENT OF THE PRINCIPAL

Dar es Salaam Institute of Technology (DIT) was established by an Act of Parliament No.6 of 1997 as a high technical training institution in Tanzania. The vision of Dar es Salaam Institute of Technology (DIT) is to become the leading technical education institution in addressing societal needs. Among others, the mission of DIT is to provide the development and usage of appropriate technology that meets national, regional and international needs and standards through skills and practical-oriented training, research and consultancy. Besides, DIT is positioned to respond to a call by the President of 5th phase Government of the United Republic of Tanzania (URT), His Excellence Dr. John Pombe Joseph Magufuli, to spearhead realization of industry economy by 2025, as spelt out in his inaugural speech to the Parliament of Tanzania on 20th November, 2015.

DIT understands that such a mission could only be realized if local technical training institutions will significantly increase students' enrollment and improve teaching methodology. We are therefore planning to increase our enrollment from 4000 to 6000 students by 2021 through extending our services to various parts of the country including Dar es Salaam, Mwanza, Songwe, Dodoma and Coastal regions. Besides, DIT envisions putting in place support services for business start-ups for its students after completion of training, and similar measures for easing labour-entry and job-retention. Such initiatives are the testimony of DIT willingness and readiness to participate in making the intended efforts towards industrialization in our country a successful reality. As a public institution whose activities are funded by public funds, DIT is indispensable partner in the industrialization agenda.

Currently, DIT offers twenty three (23) academic programmes in the fields of maintenance management, computational science and engineering, civil engineering, computer engineering, electrical engineering, mechanical engineering, science and laboratory technology, oil and gas engineering, information technology, mining engineering, biomedical equipment engineering, communication system technology, renewable energy technology, multimedia and film technology, biotechnology, and food science and technology. As part of the expansion programme, DIT this academic year has established a new and marketable ordinary diploma training programme in leather product development technologies at Mwanza Campus. One reason for this is because the field has strong linkages with agricultural sector. It is a labour intensive, thus absorbing labour from the agricultural sector, and has major potential and low entry barriers.

Technical training at DIT is competency based, characterized by ability to carry out an occupational activity, but still it needs to be consolidated. In order to achieve this, we are fostering a teaching factory approach whereby technical training is interactively linked to a real life factory business. This is realized by either establishing a virtual or physical factory. The former is achieved through industrial linkages. It is also envisioned to couple the training with technology incubators as they provide space, partnerships and networks to build a national community in which project/research students, innovators, entrepreneurs, scientists, technologists, professionals and investors can continuously exchange knowledge, share best practices, develop innovative businesses and expand their networks both locally, regionally and globally. The strategies are aimed at providing engineering or technical training and hands-on practice under industrial conditions for DIT students, while taking up research/project results and industrial learning activities for engineers and blue-collar workers.

DIT is therefore committed as an agent of industrialization, a progressive and customer-centered higher learning institution.

PRINCIPAL

Vision

- The vision of Dar es Salaam Institute of Technology (DIT) is to become the leading technical education Institution in addressing societal needs.

Mission

- The mission of Dar es Salaam Institute of Technology is to provide competence based technical education through training, research, innovation and development of appropriate technology.

Function

- To provide facilities for study and training in the principles, procedures and techniques and conduct training programmes in Electrical Engineering, Civil Engineering, Mechanical Engineering, Computer Engineering, Science and Laboratory Technology, Electronics and Telecommunications Engineering, and such other related disciplines as the Institute may from time to time decide.
- To engage in applied research and development in the disciplines specified above.
- To provide consultancy services to the public.
- To conduct examinations and grant awards of DIT as approved by the National Council for Technical Education
- To perform all such other functions as stipulated in the Act that established the institute

Dar es Salaam Institute of Technology Main Campus

Dar es Salaam Institute of Technology has three campuses, Dar es Salaam, Mwanza and Myunga campus in Songwe. Dar es Salaam (main) campus offers a wide range of full and part time applied science engineering and professional training programs leading to the awards of Ordinary Diploma, Bachelor of Engineering, Bachelor of Technology and Master Degree programs. These programs are offered by six academic Departments namely Civil, Electrical, Electronics & Telecommunications, Mechanical, Computer Studies, and Laboratory Science & Technology. The General Studies Department supports the academic departments through teaching courses in Mathematics, Communications Skills, research and Entrepreneurship Education.. In addition various short term professional training courses are offered by DIT through the Institute Consultancy Bureau (ICB) and the India Tanzania Center of Excellency in Information Communication Technology) ITCoEICT.

Currently, DIT Mwanza campus offers an Ordinary Diploma in Science and Laboratory Technology and in this new academic year 2017/18, a one year Leather based programme, Basic Technician Certificate in Leather Products Technology, leading to a National Technical Award (NTA Level 4) has been introduced. This adds up to the existing courses, Leather Craft Tanning, Basic Shoe and Leather Goods Making, and Information and Communication Technology. DIT is expecting in the near future to start offering vocational skills training programmes at new Myunga campus and tailor made training courses.

CHAPTER ONE

INTRODUCTION TO DAR ES SALAAM INSTITUTE OF TECHNOLOGY

1.1 Brief Information about DIT

The Dar es Salaam Institute of Technology (DIT) is located in the Dar es Salaam city centre, at the junction of Morogoro Road and Bibi Titi Mohamed Street. Historically, DIT was established in 1997 by the Act of Parliament, "the DIT Act No.6 of 1997" to replace the Dar es Salaam Technical College, which had a long history of technical training in Tanzania. This history dates back to 1957 when its predecessor; the Dar es Salaam Technical Institute was established with the main task of providing vocational training in the country. The Institute later expanded its scope to offer technical secondary school courses and training for Technical Assistants before it was upgraded in 1962 to become the Dar es Salaam Technical College (DTC), the first formal technical training institution in the country.

Part of the responsibilities of DTC at the time of its inception was to train technicians under the London City and Guilds Training Program. In order to enhance its contribution to the national capacity building in technical manpower, the College in 1964 introduced two and a half year Ordinary Technician Diploma (OTD) programmes in Civil, Electrical, Telecommunications and Mechanical Engineering. These were later upgraded into three year Full Technician Certificate (FTC) courses in 1970/1.

Later, the College also introduced Diploma in Engineering (DE) programs in the four traditional engineering disciplines to provide post-FTC technical training. Courses for Laboratory Technology and Diploma in Technical Education (DTE) were also introduced. The position of DTC in the provision of higher technical education was consolidated in 1991 when the corresponding Advanced Diploma in Engineering (ADE) programs replaced the Diploma in Engineering (DE) courses. Today, DE and ADE graduates can be found in almost all engineering firms/institutions and positive feedback is available from the respective employers to indicate their overall good performance.

The current political and economic trends, as well as the new technological changes have increased competition in the demand for, and supply of quality products including technical education and services. Under such a competitive environment, the leading position of DTC in the provision of higher technical education could not be sustained for long, with its old set-up and mission. Hence a new institution was therefore necessary to replace the Dar es Salaam Technical College; the institution that can effectively address the current technological developments, provide competitive academic outputs in terms of quality technical training, applied research and expertise services to the community. The Dar es Salaam Institute of Technology was therefore established in 1997 to realize that aspiration, as guided by its vision and mission.

DIT is a fully accredited institution by the National Council for Technical Education (NACTE). Currently, DIT offers a wide range of full-time, part-time and professional applied sciences and engineering training courses /programmes. The Institute has replaced the FTC and ADE programmes with Ordinary Diploma and now started offered Bachelor of Engineering programmes respectively (i.e National Technical Awards (NTA) Level 4-9) in line with the NACTE competence based modular training system. In addition, the Institute has started offering Bachelor of Technology in Laboratory Sciences. Recently the Institute has started offering the following programmes: Master in Computational Science and Engineering Master of Engineering in Maintenance Management, Bachelor of Oil & Gas and Diploma programme in Biotechnology, Food Science and Technology. In the next academic year 2018/2019 the institute is expecting to offer Master of Engineering in Sustainable Energy Engineering Programme.

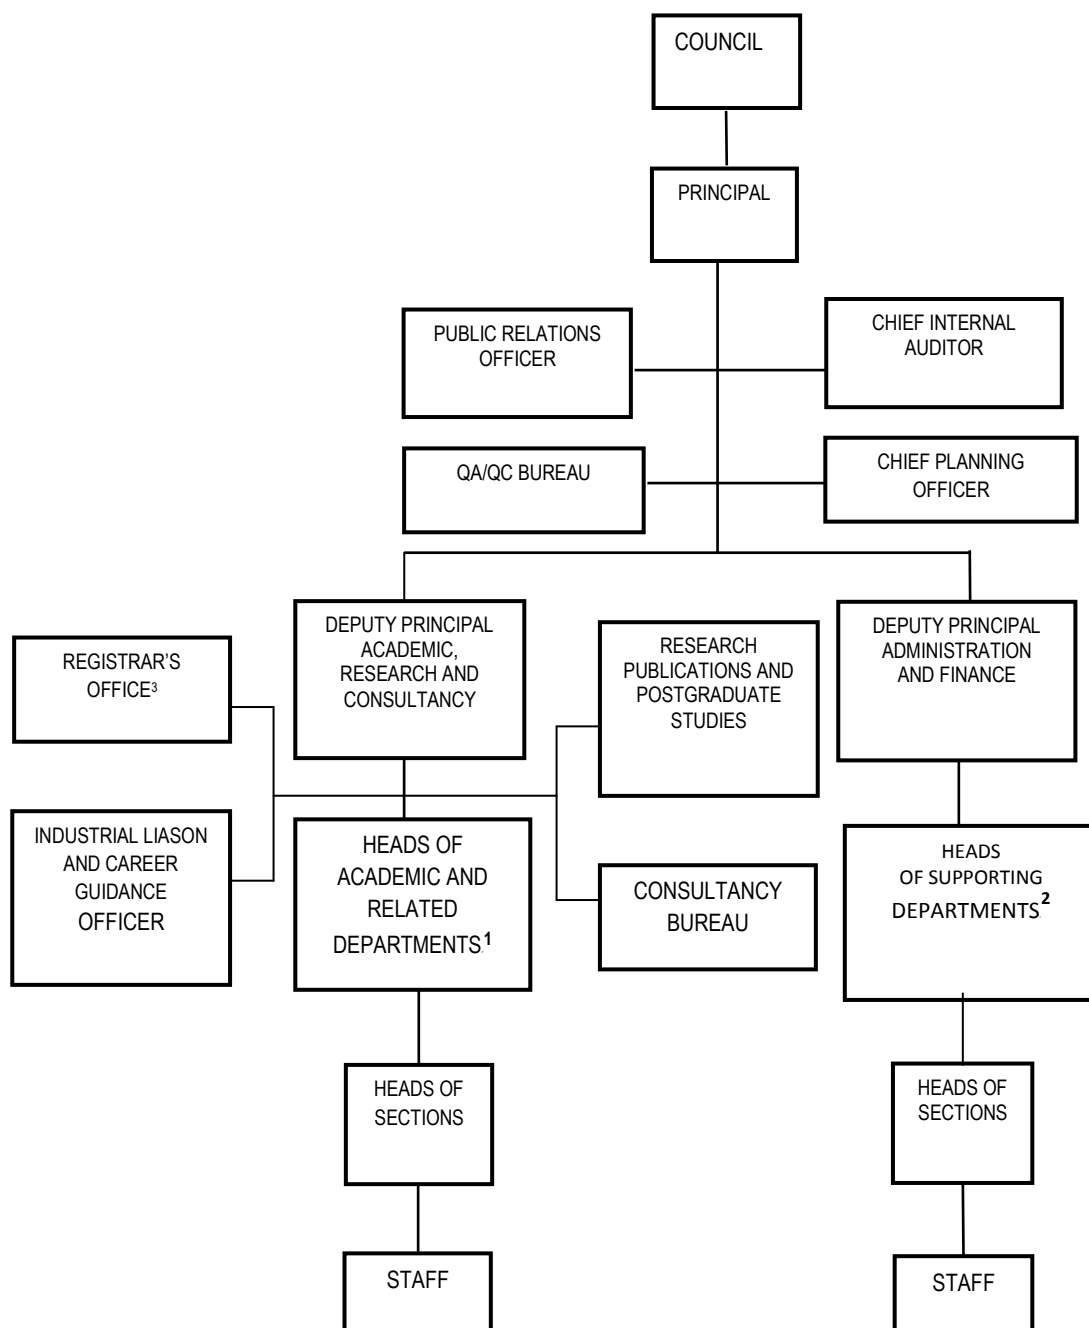

The expectations and aspirations of Tanzanians towards DIT are very high because for the long time the institute has been producing graduates who meet the market demand. As expressed in the National Technical Education and Training Policy of 1996, National Higher Education Policy of 1999 and Tanzania Development Vision 2025 of 1999 advancement in science and technology are key areas to focus on; as they have a positive impact to social economic growth in any country also ensures a knowledge-based economical growth. In order for DIT to match with its new structure, roles and functions, current market demand. Training curricula are

reviewed after every five years by incorporating various stakeholders' views.

This Prospectus therefore, describes the main features of the DIT in line with the customers' and stakeholders' interests. It provides an outline of academic programmes, admission requirements, procedures and regulations to be met for one to get admission and graduate at the Institute. In addition, examination regulations, course programmes, course duration list of academic staff and other relevant information are also provided.

1.2 Organization Structure of DIT

The top organ of the DIT is the Council followed by the Chief Executive Officer (Principal) who is supported by the Deputy Principal (Academic, Research and Consultancy) and the Deputy Principal (Administration and Finance). The two Deputy Principals are supported by Heads of various Departments who oversee teaching, learning and resources of the respective Department. Organization structure of DIT is shown in Figure 1.2.

1.3 Organization of the Prospectus

This prospectus provides an outline of the academic programmes currently offered by DIT and the near-future plans towards the realization of the mission of the Institute with respect to training in Chapter 2. It also provides information on procedures and regulations for admission to such programmes and the corresponding fees in Chapters 3 and 4 respectively.

Chapter 5 provides Examination Regulations with details of all matters related to examinations conducted by the Institute for various programmes leading to the awards of NTAs 4-9 levels namely; the Ordinary Diploma, Bachelor Degree and Master Degree programmes. More information regarding procedures for offering master degree programmes at DIT are detailed in the postgraduate guidelines.

Chapter 6 gives the profiles of academic Departments and other related units of the Institute including a list of academic staff and course outlines for academic programmes offered by respective Departments. The inputs of the Prospectus as highlighted above are complemented with some additional and general information for the DIT dispensary, accommodation and catering services available to students which are presented in Chapter 7. Chapter 8 presents general information regarding students' prizes & awards, students, important information for students and the center of Excellency in ICT. Chapter 9 has the information about Mwanza campus. The academic calendar for the academic year 2017/2018 for offered programmes is shown on chapter 10.

CHAPTER TWO

ACADEMIC PROGRAMS OFFERED

DIT is fully accredited by the National Council for Technical Education (NACTE) to run and grant awards to successful candidates as per the institute's and NACTE's regulations. Awards offered are National Technical Award Level (NTA) 4 – 6 (Ordinary Diploma Programmes), 7 – 8 (Bachelor Degree Programmes) and NTA 9 (Master Degree Programmes).

2.1. Basic Technician Certificate and Technician Certificate

The Basic Technician Certificate and Technician certificate are part of the Ordinary Diploma. Students who wish to exit or fail to attain an Ordinary Diploma but have successfully fulfilled the requirements for awards of Basic Technician Certificate (NTA 4) or Technician Certificate (NTA 5) shall be awarded the awards qualified for.

2.2. Ordinary Diploma Programmes

- i. Ordinary Diploma in Civil Engineering
- ii. Ordinary Diploma in Computer Engineering
- iii. Ordinary Diploma in Electrical Engineering
- iv. Ordinary Diploma in Electronics and Telecommunications Engineering
- v. Ordinary Diploma in Mechanical Engineering
- vi. Ordinary Diploma in Science and Laboratory Technology
- vii. Ordinary Diploma in Mining Engineering
- viii. Ordinary diploma in Biomedical Equipment
- ix. Ordinary Diploma in Information Technology
- x. Ordinary Diploma Renewable Energy Technology
- xi. Ordinary Diploma Communication System Technology
- xii. Ordinary Diploma Multimedia and Film Technology
- xiii. Ordinary Diploma in Food Science Technology
- xiv. Ordinary Diploma in Biotechnology
- xv. Diploma in leather Product Development technologies (only offered at Mwanza campus)

2.3. Higher Diploma

Is part of the Bachelor Degree Programme. Students who wish to exit or fail to attain Bachelors Degree but have successfully fulfilled the requirements for the awards of a Higher Diploma shall be awarded the Higher Diploma (NTA 7).

2.4. Bachelor Degrees Programmes (NTA 8)

The Bachelor Degree programmes, listed below are of six semesters covered in three academic years.

- i. Bachelor of Engineering (B.Eng) in Civil Engineering
- ii. Bachelor of Engineering (B.Eng) in Computer Engineering
- iii. Bachelor of Engineering (B.Eng) in Electrical Engineering
- iv. Bachelor of Engineering (B.Eng) in Electronics and Telecommunications Engineering
- v. Bachelor of Engineering (B.Eng) in Mechanical Engineering
- vi. Bachelor of Technology (B.Tech) in Laboratory Sciences
- vii. Bachelor of Engineering in Oil and Gas Engineering

2.5. Post-graduate Studies

In response to the market demands capacity and technological challenges, DIT has two postgraduate programs,

- i) Master of Engineering in Maintenance Management and
- ii) Master of Engineering in Computational Science and Engineering.

These programs are offered by coursework and dissertation, and the course duration is 18 and 24 months respectively.

In the next academic year 2018/2019 a new Master of Engineering Degree Programme in sustainable energy Engineering is expected to be offered.

The detailed information on the courses offered, duration, awards granted and related remarks are summarized in Table 2.1

CHAPTER THREE

ADMISSION REGULATIONS

3.1. Minimum Entry Qualifications for Ordinary Diploma (NTA LEVEL 4-6) Programmes

Candidates may join the Ordinary Diploma (NTA LEVEL 4-6) programmes offered by DIT through the Direct Entry Scheme.

B.1: Minimum Entry Requirement for Basic Technician Certificate in Leather Products Technology

Holder of Certificate of Secondary Education Examination (CSEE) with at least four (4) passes (i.e. D grade or higher) in Physics/Engineering Science, Mathematics, Chemistry or English AND any other subject pursued at the same sitting.

3.1.1 Direct Entry Scheme

In order to qualify for admission under the Direct scheme, a candidate must be a holder of a good Certificate of Secondary Education (CSE) with a minimum pass of "C" grade (or 9 points based in the following conversion: (A=1, B=2, C=3, D=4 for applicants who completed Form IV before 2013) and (A=1, B⁺=2, B=3 C=4, D=5 for applicants who completed Form IV in 2013 to date) in the following three subjects; Physics/Engineering Science, Mathematics and Chemistry or English, or must have a good General Certificate Course in Engineering (GCE).

For admission into the Ordinary Diploma (NTA LEVEL 4-6) in Science and Laboratory Technology, Biomedical Equipment Engineering and Food Science and Technology applicants must have passed chemistry and Biology in addition to the above requirement.

3.2. Minimum Entry Qualifications for Bachelor Degree (NTA Level 7- 8) Programmes

Candidates can join the Bachelor Degree (NTA Level 7- 8) programmes offered by DIT through the Direct Entry Scheme

3.2.1 Direct Entry Scheme

In order to qualify for admission into Bachelor Degree (NTA Level 7- 8) three (3) years programmes, the following minimum entry qualifications are required:-

- (i) Candidates applying for Bachelor of Engineering must be holders of Ordinary Diploma (NTA Level 6) in Engineering majoring either: Civil or Mining or Computer or Electrical or Electronics & Telecommunications or Mechanical or Water Supply and Sanitation or information Technology offered by DIT or Biomedical Equipment Engineering or its equivalent from a recognized institution with minimum of Second Lower Class (Grade Point Average (GPA) of 3.0) from a NACTE recognized Institution and at least 4 passes or three (3) credit passes in relevant subjects at Certificate of Secondary Education (CSEE).

Or

Holders of Full Technician Certificate (FTC) in Engineering majoring either: Civil or Computer or Electrical or Electronics & Telecommunications or Mechanical or Water Resources or its equivalent from a NACTE recognized Institution with an average of minimum pass of C or an average of minimum 3 points based on the following conversion scale: A=5, B=4, C=3, D=2 and at least 4 passes or three (3) credit passes in relevant subjects at Secondary Education (CSEE).

- (ii) Candidates applying for Bachelor of Technology in Laboratory Sciences must possess Ordinary Diploma (NTA Level 6) in Technology majoring either: Science and Laboratory Technology or its equivalent from a recognized institution with minimum of Second Lower Class (Grade Point Average (GPA) of 3.0) from a NACTE recognized Institution and at least 4 passes or three (3) credit passes in relevant subjects at Certificate of Secondary Education (CSEE).

Or

Holder of good Full Technician Certificate (FTC) in Technology majoring either: Science and Laboratory or its equivalent from a recognized institution an average of minimum pass of C or an average of minimum 3 points based on the following conversion scale: A=5, B=4, C=3, D=2 and at least 4 passes or three (3) credit passes in relevant subjects at Secondary Education (CSEE).

- (iii) Candidates applying for Bachelor Degree in Oil and Gas Engineering must

possess Ordinary Diploma in Engineering (NTA Level 6) majoring either: Civil, Mining, Electrical or Mechanical with minimum of Second Lower Class (Grade Point Average (GPA) of 3.0) from a NACTE recognised Institutions.

Or

Holder of good Full Technician Certificate (FTC) in Engineering or Technology majoring either: Civil or Mining or Electrical or Mechanical from a recognised Institution with an average of minimum pass of C or an average of minimum 3 points based on the following conversion scale: A=5, B=4, C=3, D=2.

In order to qualify for admission into Bachelor Degree (NTA Level 7- 8) four (4) years programmes, the following minimum entry qualifications are required:-

- (iv) Holders of Advanced Certificate of Secondary Education (ACSEE) in the combination of Physics, Chemistry and Mathematics (PCM) or Physics, Geography and Mathematics (PGM) with Principal Pass in Mathematics and Physics from the same sitting with a total of not less than 4.0 points based on the following conversion scale: (A=5, B=4, C=3, D=2, E=1, S=0.5, F=0 for candidates who completed Form VI before 2014) and (A=5, B⁺=4, B=3 C=2, D=1, E=0.5, F=0 for candidates who completed Form VI in 2014 to date). Selected candidates will be required to undergo a four year programme.
- or
- (v) Holders of Ordinary Diploma (NTA Level 6) or Full Technician Certificate (FTC) who meet criteria 3.2.1 (i) above wishing to change programme of study.

3.3. Procedures for Application and Admission

3.3.1. Direct Entry Scheme

- (i) Candidates applying for Bachelor Degree programmes must apply through the DIT On-line System Management (OSIM-SAS). The modality of application is found on DIT website: www.dit.ac.tz
- (ii) Ordinary Diploma Candidates are required to apply through DIT online link of **<http://admission.dit.ac.tz>** in which the information about the modality and procedures for application will be accessible. For more information visit DIT website: **<http://www.dit.ac.tz>** whereby candidates are required to attach scanned original relevant certificates i.e. CSEE/GCE, ACSEE, valid National (for those who recently completed their secondary education) Examination results slips, birth certificates as well as scanned personal passport size photographs taken within the last six months.
- (iii) Candidates applying for readmission at different NTA levels are required to obtain application forms at the Institute Registrar's office or may be downloaded from our Website: <http://www.dit.ac.tz>. All applications with all necessary requirement/certificates are processed by different boards and finally selected applicants are notified.
- (iv) All Ordinary Diploma online applications must be accompanied by an original scanned bank pay-in slip of a non-refundable application fee of TSh. 10,000/= for Tanzanian applicants, USD10 for non-Tanzanian payable to Dar es Salaam Institute of Technology through any branch of CRDB Bank account No 0150408417800. Bachelor Degree candidate will follow the application fees that will be announced by TCU.
- (v) All interested candidates are required to online fill the application forms and submit within the announced deadline.
- (vi) Non disclosure of details or provision of false information to any of the sections in the application form if discovered shall render the candidate's registration with the Dar es Salaam Institute of Technology cancelled.
- (vii) The applications are scrutinized and ranked according to the performance in terms of qualifications and the availability of admission chances

3.4. Admission requirements and procedures for Master Degree Programmes

3.4.1. Minimum Entry Qualifications to join Master of Engineering in Maintenance Management Programme

- i. Applicants must be holders of Bachelor of Engineering degree either in civil, electrical, mechanical or equivalent; with a GPA of at least 3.0 or its equivalent from any other accredited higher learning Institutions. **OR**
- ii. Applicants with a Bachelor of Engineering degree in either; civil, electrical, mechanical or equivalent; with at least 3.0 GPA, and must have not less than 3 years working experience after graduation. **OR**
- iii. Holders of Advanced Diploma of Engineering in; civil, electrical, mechanical, or equivalent from an accredited higher learning institution with a PASS and a minimum of five years working experience after graduation.

3.4.2. Minimum Entry Qualifications to join Master of Engineering of Computational Science and Engineering

- j. Applicants must be holders of a Bachelor degree in Engineering, Science or equivalent with a GPA of at least 3.0 from a recognized higher learning institution. **OR**
- ii. Holders of Bachelor degree in Engineering, Science or equivalent of at least 2.7 from a recognized higher learning institution and with a minimum of three years of relevant working experience after graduation. **OR**
- iii. Holders of Advanced Diploma in Engineering, Science or equivalent with a PASS from a recognized higher learning institution and with a minimum of five years working experience after graduation.

3.4.3. Application procedures and application forms

Information about fees structure and application forms (DIT/PS/APPL/01 and DIT/PS/APPL/02) and procedures are available on DIT website: <http://www.dit.ac.tz> or Research office (Block B, Ground floor).

3.5. Other Important Information Related to Admission

3.5.1. Registration

All selected candidates are required to register after they have paid registration fee within the first two weeks after arrival at the Institute. Specifically, the deadline for registration of first year students is two weeks from the first day of the orientation week, while for continuing students it is the Friday of the second week after the beginning of the First Semester session.

3.5.2. Institute Regulations

Upon admission, all fresher's must obtain and read thoroughly the following regulations: (Other information can be accessed on DIT Website (<http://www.dit.ac.tz>)).

- (i) Conditions for Government sponsorship (in case of government sponsored students)
- (ii) Students General Welfare, Conduct and Disciplinary Regulations
- (iii) Examination Regulations
- (iv) The Constitution of the Dar es Salaam Institute of Technology Students Organization (DITSO).
- (v) Industrial Practical Training (IPT) Regulations
- (vi) Library Regulations
- (vii) Postgraduate guidelines special for postgraduate students
- (viii) All admitted students are expected to comply entirely with institute regulations.
- (ix) Any other regulations, guidelines and policies issued by DIT from time to time.

3.5.3. During registration every student must produce the following documents:

- (i) Joining Instructions sent to him/her
- (ii) A duly filled acceptance form to abide by the Institute Rules and Regulations
- (iii) A duly filled medical examination form
- (iv) All the original receipts / pay in slips of the money paid to the Institute through the Bank
- (v) Original certificates, academic transcripts, statement of results etc for (B.Eng, mature age and Pre entry course entrants)
- (vi) A birth certificate/affidavit

- (vii) 2 passport size and 4 stamp size photographs recently taken
- (viii) All foreign students are required to apply for residence permit from their nearest Tanzania Embassy before they depart for Tanzania.
- (ix) TCU Certified undergraduate certificates for candidates who graduated in other Universities/Institutes/colleges outside Tanzania.

- 3.5.4. Every student shall report at the Institute at the beginning of the semester and on a prescribed date by the Institute. Any student who fails to report at the Institute on the prescribed date but reports not later than seven days from the date of reporting and without showing any reasonable cause for the failure to do so, shall be liable to receive a written warning from the Registrar.
- 3.5.5. Students who have been selected but cannot register for any reason cannot defer the admission to the next academic year. Such students need to apply afresh.
- 3.5.6. Students who have postponed studies will be required to report at the Institute at the corresponding time/date and semester similar to that one she/he left.
- 3.5.7. No change of names by students is entertained during the course of study at the Institute. Names appearing on the original academic certificates shall be used.
- 3.5.8. No student is allowed to change course, except in very exceptional circumstances. In the latter case, no student is allowed to change course later than the Friday of the second week after the beginning of the first semester session.
- 3.5.9. No student is allowed to postpone studies after commencement of an academic year except under special circumstances. Permission to postpone studies is considered after producing satisfactory evidence for the reasons of postponement and written approval from the sponsor.
- 3.5.10. Students shall be allowed to be away from studies for a maximum of two academic years if they are to be allowed for re-admission to the same year of studies where they left.
- 3.5.11. Students discontinued from studies on academic grounds may be readmitted to a different programme in the immediate next academic year or in the same programme after lapse of two years.
- 3.5.12. Students discontinued from studies on disciplinary grounds are barred from re-admission to any programme at the Institute.

CHAPTER FOUR

FEES AND OTHER FINANCIAL REQUIREMENTS

4.1. General Information

Apart from Tuition Fee, each student is required to pay for the following:

4.1.1 Registration Fee

All selected candidates will be required to register annually and pay a registration fee of 10,000/= only for Tanzanian citizen and USD 40 for non Tanzanian citizen per year. For Postgraduate Programmes, registration fees is TSh 50,000/= for Tanzanian or USD 50 for non Tanzanian students per year.

4.1.2 Caution Money

Each student is required to pay TSh. 10,000/= for Tanzanian citizen or USD 50 for non Tanzanian students as Caution Money. The money shall be refunded upon completion of course if he/she was not involved in any loss or damage of the Institute's properties. Where losses/damage exceeds 10,000/= or USD 50 the student shall be asked to pay the difference.

4.1.3 Identity Card

Each student is required to come with two recently taken stamp size photographs and TSh. 10,000/= for the cost of Identity Card. This amount is paid once. Replacement for a lost Identity Card shall be done after obtaining a loss report from Police Station and payment of TSh. 10,000/= for Tanzanian citizen or USD 20 for non Tanzanian students.

4.1.4 Membership to the DIT Students' Organization

Every DIT registered student is a member of the DIT Students Organization (DITSO). The membership registration fee for the first year students is TSh. 10,000/= for Tanzanian citizen or USD 20 for non Tanzanian students Membership subscription fees for every continuing student is TShs 5,000/= for Tanzanian student or USD 20 for non Tanzanian students each year.

4.1.5 Students Relief Fund /Medical contribution

Students with no valid health insurance membership cards are required to pay a total of TShs. 50,400/= for Tanzanian students or USD 60 for non Tanzanian students as a contribution towards students joining NHIF. Non Tanzanian student under postgraduate

programme is required to pay USD 75. This amount is paid directly to the Institute's Bank Account. Students with NHIF or other health insurance membership cards are not required to pay the contribution. However the ID for a health insurance membership is required before registration as evidence of payment of this contribution.

4.1.6 Accommodation in DIT Hostels

Ordinary Diploma (NTA Level 4-6) government sponsored students seeking accommodation in the Institute's hostels are required to bring with them: plates, cups, spoons, forks, bed sheets, pillows, mosquito nets and blankets. Every student shall before being granted institute's accommodation pay in advance the prescribed accommodation fees.

4.2. Specific Information on Students Sponsorship

Students pursuing Ordinary Diploma (NTA level 4-6) programmes may join the Institute under Government sponsorship or as privately sponsored candidates. Whereas students pursuing Bachelor Degree are encouraged to apply for scholarship, loan from Higher Education Students Loan Board (HESLB) or third party. The fee structures for Government, Private sponsored students pursuing Ordinary Diploma (NTA level 4-6) programmes, students pursuing Bachelor Degree Programmes and students pursuing Master programme are as shown in Table 4.1, 4.2 and 4.4 respectively.

5.8.4 Industrial practical training (IPT)

All industrial practical training modules for NTA Levels 4, 5 and 7 shall be carried out after the semester two of the respective academic year. The log books will be marked and IPT results shall be compiled for the semester I of the next academic year.

5.8.5 Students' Projects

5.8.5.1 Coverage

Project Data Collection and Project Data Analysis are covered in Semester I and. II, respectively for both NTA levels 6 and 8 candidates.

- i) Project Data Collection module addresses the project proposal with preliminary data collection and is carried out in semester I in both NTA 6 and 8.
- ii) Project Data Analysis module covers the data collection, organization, analysis and the final report done in semester II in both NTA 6 and 8.

5.8.5.2 Projects Evaluation

Students Projects (Project Data Collection and Project Data Analysis modules) shall be assessed like other module(s);

- a) Evaluation of the Projects shall be done as guided in the Project guidelines for B. Eng and OD programs (Section 5.1).
- b) A student failing in 'Project Data Collection' in semester I cannot proceed to Project Data Analysis module in semester II, shall have to re-take the whole Project when next offered.
- c) A student failing in 'Project Data Analysis' module in semester II shall be required to re-take the whole Project when next offered. The score given to Project Data Collection in that case shall be nullified.

5.8.6. Dissertations

Dissertations (a six (6) months module) for NTA 9 shall be conducted and assessed according to the DIT Postgraduate guidelines.

5.9. Absence from Examination

| Class of Awards | Cumulative GPA |
|--------------------|----------------|
| First Class | 4.4 – 5.0 |
| Upper second class | 3.5 – 4.3 |
| Lower Second Class | 3.0 – 3.4 |

Table 5.2. Ranges of Scores for different Grades for NTA level 9 by Coursework and dissertation.

| Range of Marks (100%) | Grade | Grade point | Definition |
|------------------------------|--------------|--------------------|-------------------|
| 70-100 | A | 5 | Excellent |
| 60-69 | B+ | 4 | Very Good |
| 50-59 | B | 3 | Good |
| 40-49 | C | 2 | Poor |
| 35-39 | D | 1 | Very poor |
| 0-34 | F | 0 | Failure |

5.23. Procedure for calculating Grade Point Average (GPA)

5.23.1. Modules considered in computing GPA

All core modules' credits shall be included in calculating GPA. However, where candidate takes electives over and above minimum required, credits from electives with highest scores adding to the minimum particular NTAs award shall be used in calculating GPA. The scores for the remaining electives shall be entered into the transcript.

5.23.2. Computation of the Cumulative GPA (CGPA)

The computation of the Cumulative GPA (CGPA) will be based on the following formula.

$$\text{CGPA} = \text{Avg GPA} = \frac{\text{GPA FOR SEMESTER I} + \text{GPA FOR SEMESTER II}}{2}$$

$$\text{WHERE GPA FOR A GIVEN SEMESTER} = \frac{\sum (\text{Grade points} \times \text{Credit})}{\sum \text{Credit}}$$

Grade Points Computation for (4-5)

| Range of Marks | Grade | Grade point | Equation For The Grade Point |
|----------------|-------|-------------|--|
| 80 – 100% | A | 4.0 | $\frac{\sum (\text{Letter Grade points} \times \text{Credit})}{\sum \text{Credits}}$ |
| 65 – 79 % | B | 3.0 | |
| 50 – 64 % | C | 2.0 | |
| 40 – 49 % | D | 1.0 | |
| 0 – 39% | F | 0 | |

Grade Points Computation for NTAs 6

| Range of Marks | Grade | Grade point | Equation For The Grade Point |
|----------------|-------|-------------|--|
| 75 – 100% | A | 5.0 | $\frac{\sum (\text{Letter Grade points} \times \text{Credit})}{\sum \text{Credits}}$ |
| 65 – 74 % | B+ | 4.0 | |
| 55 – 64 % | B | 3.0 | |
| 45 – 54 % | C | 2.0 | |
| 35 – 44% | D | 1.0 | |
| 0 – 34% | F | 0 | |

Grade Points Computation for NTAs 7-9

| Range of Marks | Grade | Grade point | Equation For The Grade Point |
|----------------|-------|-------------|------------------------------|
| 70 – 100% | A | 5.0 | |

| | | | |
|-----------|----|-----|--|
| 60 – 69% | B+ | 4.0 | Σ (Letter Grade points \times Credit) Σ Credits |
| 50 – 59 % | B | 3.0 | |
| 40 – 49 % | C | 2.0 | |
| 35 – 39% | D | 1.0 | |
| 0 – 34% | F | 0 | |

5.23.3. Precision for Computations of Cumulative Grade Points

The order of precision of Grade Points Computation shall be as follows:

- i. Computations of Cumulative Grade Points shall be made to the fourth decimal places
- ii. Cumulative Grade Points shall be rounded off to three decimal places
- iii. For award classification purposes, final Grade Points shall be truncated to the first decimal place

5.24. Institute awards approved

Upon completion of studies the Institute shall award successful candidates the following Institute awards as approved by the National Council for Technical Education (NACTE)

- (a) NTA level 4 – Basic Technician Certificate
- (b) NTA level 5 – Technician Certificate
- (c) NTA level 6 – Ordinary Diploma
- (d) NTA level 7 – Higher Diploma
- (e) NTA level 8 – Bachelor Degree
- (f) NTA level 9 – Master Degree

5.25. Issue of Academic Certificate

- 5.25.1 The Institute shall award Academic certificates to successful candidates as approved by the Council of the Institute. The certificate recipients will not be required to meet the cost of printing the certificates.
- 5.25.2. The institute may correct a printed certificate and issue a corrected certificate if it is satisfied that there is a need to do so. The Principal shall prescribe the cost to be paid by the bearer of the certificate if the error to be corrected is caused by the bearer.

5.26. Replacement of Lost Academic Certificates

The Institute may issue another copy in case of loss of the original certificate on

condition that:

- (a) The applicant produces a sworn affidavit,
- (b) The certificate so issued shall be marked , across it;
- (c) The replacement certificate shall not be issued until 12 months after reporting the loss to the Institute;
- (d) The applicant must produce evidence that the loss has been adequately publicly announced, including a written report from the Police;
- (e) A fee prescribed by the Principal at the beginning of the academic year shall be charged, for the copy of the certificate issued.

5.27. Issue of Transcript/Statement of results

The Institute may issue transcripts statement of results at a cost prescribed by the Principal at the beginning of the academic year.

5.28. Amendments

Amendments on examinations regulations shall be done from time to time as deemed necessary by the academic committee.

Note in addition to examination regulations, postgraduate students are required to comply with DIT postgraduate guidelines.

CHAPTER SIX

PROFILE OF ACADEMIC DEPARTMENTS

6.1. DEPARTMENT OF CIVIL ENGINEERING

The Department offers Ordinary Diploma (OD) at NTA level 6 and Bachelor of Engineering Degree (B. Eng) at NTA Level 8. The Department also offers Master degree programme of Engineering in Maintenance Management (NTA 9) by coursework and dissertation. Students admitted for OD may exit at NTA level 4 and 5 with the award of Basic Technician Certificate (BTC) and Technician Certificate (TC) respectively. Successful students who complete Ordinary Diploma course are awarded an Ordinary Diploma at NTA level 6. While those for engineering degree courses may exit at NTA level 7 and are awarded a Higher Diploma (HD), including those who proceed to NTA level 8, but are unable to qualify for a degree. Successful students who complete NTA level 8 are awarded Bachelor of Engineering Degree in Civil Engineering while successful students in NTA 9 will be awarded Master of Engineering in Maintenance Management.

To support the above programmes, the department possesses adequate physical and human resources this include lecturers, classrooms, laboratories and workshops. It has thirty eight 38 qualified teaching staff members and five technical supporting personnel.

6.1.2 List of Academic Staff in the Department of Civil Engineering Lecturer and Head of Department

Lecturer and Head of Department

A. Thomas, BSc.Eng(Dar), MSc Eng(Dar), PhD (PRC)

Senior Lecturer

S S. Kassim, FTC Eng (KTC), ADE (DTC), MEng (Holland), GEng(T) GEng (IET), PhD (UK)

A.S. Oberlin, ADE (Public Health) (UCLAS), MSc (Environ.) (Holland), PhD Environment Mgt (Wageningen) Univ The Netherland

Lecturers

Rwandallah, FTC Eng (DTC), MSc. Eng (USSR), PhD (China), G. Eng (T)

S.J. Mbawala, FTC (DTC), ADE (DTC), MSc. Eng. (RSA), PhD, Geotechnical Eng. (UP-RSA)

J. Musagasa BSc Eng. (UDSM), MSc Eng. (UDSM), PhD (USA)

J. Malisa, BSc. Eng (UDSM), MSc. Eng (UDSM), MSc, Eng. (UDSM), PhD (UDSM/NTNU)

M.S. Ntiyakunze, AD Public Health (Ardhi Institute), MSc Env (Holland), PhD (ARU)

Assistant Lecturers

D.R. Singo, Diploma Ed. (Kleruu), BSc. Eng (UDSM), MSc (Highway) (UK), PEng (T)

J.A. Njau, AD Arch) (Ardhi Institute)

I.M. Kanuti, FTC Eng (DTC), MSc Eng (USSR)

Y.N. Ngoma, PGD (Geology) (Holland), MSc (Struct. Eng) (Byelorussia)

B.Y.B. Masangya, FTC Eng ADE (DTC), MSc.(Struct. Eng.) (UK)

M. Kongola, BSc. Mining (Zambia), MSc. Mining (UK)

B. Mvuoni, AD (Land Surv) Ardhi Institute

P. Mfaume, BSc.Geology (UDSM) MSc Hydrogeolog (UDSM)

A. L. Ndibalema, ADBE (Ardhi Inst), MSc (Facility Management) Leeds

J. Chacha, B.Eng (DIT), MSc(UK)

M. Kaswa, FTC Civ. Eng (DIT), ADE (Electr.&Telecom.) (DIT) Adv. Cert (T) FRG, MSc (UK)

*R. Mkemai, BSc. (Mining) (UDSM), MSc. (Mining & Geotechnical Eng) (Sweden)

J. Sandoka, BSc. (UDSM). MSc Env. Tech Mgt (ARU)

P. Sillah BSc (UDSM), MSc. (UDSM)

J. A. Tiibika , BSc. (UDSM), MSc. (NTNU)

Tutorial Assistant

F. M. Matata BSc. In Civil and Transportation Engineering (Co ET UDSM)

Principal Instructors I

C.A.J. Msulwa, FTC Eng (DTC), DE (Kleruu) DTE (DTC)

A. Ambogo Ad. Dip (Surveying – ARU), Post. Dipl. (UK) MSc (Geomatics – ARU)

Principal Instructors II

E.J. Mwansele, FTC Eng, DTE (DTC), Adv. Dip. IT (IFM)

*Z. Nuru. BSc. Mining (UDSM)

W. Shiyo B.Sc (UDSM) MSc (USA)

P.M.C. Njovu, FTC Eng (DTC), B. Eng (MIST)

J. L. Kato BSc. In Civil Engineering ARU

Laboratory Technician grade I

A.H. Hemed, FTC Eng, (DTC), BTEC Adv. Dip. (IT), (Soft-Tech Ltd., (UDSM))

Mwita, FTC Eng (TCA), Adv Cert. (Woodwork) (FRG)

A. Nungu, FTC Eng (DTC), Adv. Cert. (Woodwork) (FRG), ADE (DIT)

C. P. James FTC in Civil Engineering (DIT)

Yasini M. Limia, OD (ATC)

Annasai Mathew OD (DIT)

6.2. DEPARTMENT OF COMPUTER STUDIES

7. This Department offers Computer Engineering, Information Technology and Multimedia & Film Technology at Ordinary Diploma (NTA Level 4 – 6), Bachelor of Engineering (NTA Level 7 - 8) and Masters in Computational Science and Engineering (NTA Level 9) programme. It also provides services to other academic Departments in teaching computer related modules. This department has adequate facilities as well as 35 qualified teaching staff and 1 technical supporting personnel. The teaching facilities as well as staffing level in terms of numbers and qualifications are constantly improved so as to support the above programmes.

6.2.1 List of Academic Staff in the Department of Computer Studies

Lecturer and Head of Department

D.H. Kisanga. Cert. (Comp. Tech.) (Japan), BSc. (Ed.) (UDSM), MEng. (Comp.) (China), PGC (Res. Practice) (UK), PhD (UK)

Senior Lecturer

****A. Nungu. BSc (Comp.) (UDSM), MSc. (Comp.) (Sweden), PhD (Sweden)

Lecturers

D.S. Simbeye. B.Eng. (Electronics) (Russia), MEng (Russia), PhD (China)

V. A. Ndume. Adv. Dip. (Comp.) (IFM), PGD (Comp.) (UDSM), MSc (Comp.) (UDSM), PhD (NMAIST)

S. Kimbi. BSc. (Comp.) (UDSM), MSc (Comp.) (Sweden), MBA (Mzumbe), PhD (NM-AIST), CISA, CISM

J. Y. Challos. Cert. (Comp. Tech.) (Japan), BSc. (Ed.) (UDSM), MEng. (Comp.) (China)

Assistant Lecturers

S. J. Mwalembe. BSc. (Ed.) (UDSM), MSc. (Electronics) (UDSM)

P.L. Ng'imba. BSc. (Electronics) (UDSM), MSc. (Multimedia Eng.) (UK)

F. Mwalongo. BSc. (Comp.) (UDSM), MSc (India)

I. Hassan. BSc IT (Malaysia), PGD (Mobile Computing) (Pune-India), MSc IT (Malaysia)

D.H. Clement. FTC (Comp.) (DIT), BSc. (UDSM), MSc. (China)

N. Maganga. BSc. (Comp.), MSc. (Comp.) (UDSM)

J. J. Nnko. BEng&Tech. (Comp.) (Russia), MEng (Comp.) (Russia), MSc. (Info. Sys.) (Russia)

R. Jesse. B.Eng. (Comp) (DIT), MSc (Software Eng.) (China)

*H.D. Shimwela. B. Eng. (Comp.) (Russia), MSc (Comp.) (South Korea)

*N.M. Mwasaga. MSc (Comp.) (Ukraine)

*C. Budoya. BSc (UDSM), MSc (Comp.) (UDSM)

*H. Fimbombaya. BEng (Comp.) (Russia), MSc (Digital Comm.) (UK)

*E. Kondela. BEng (Comp.) (Russia), MEng. (China)

*G. Tesha. Cert (Music Prod) (Thailand), FTC (Comp.) (DIT), BEng (Telecoms) (DIT), MEng (Comm.) (China)

*S. M. Wambura. BEng (Comp. Des. & Tech.) (Russia), MEng (Comp. Des. & Tech.) (Russia)

*E. Tongora. BSc (Comp. Syst. & NW) (Poland), MSc (Comp. Syst. & NW) (Poland)

*A. Mbilinyi. BEng. (Comp. Eng.) (DIT), MSc (Info. Sc.) (Japan)

Tutorial Assistants

V.E. Kannole. BSc. (Comp.) (IFM)

H. Alexander. B.Eng. (Comp.) (SJUIT)

*J.M. Selestine. B.Eng. (Comp.) (SJUIT)

*T. Isakwisa. BSc. (Comp.) (UDSM)

Principal Instructor I

**G. R. Lushaka. BSc (Electronics) (Canada)

Senior Instructors

M. Khalfani. FTC (Comp.) (DIT), B. Eng (Comp.) (DIT), CNSS (HYD-INDIA), MSc. (Info Security) (IAA)

D. Shija. MEng (China)

*H.F. Msechu. B.Tech (IT) (SJCET), PGD (Adv. Computing) (Pune-India)

*L. Champuku. BSc. (Comp. Sc.) (IFM), PGD (Adv. Computing) (Pune-India)

Instructors

D. Kaaya. Dip. (Comp. Eng) (DIT), BEng. (Comp.) (DIT), MSc (Comp. Sc.) (China)

N.D. Kimario, Dip. (Comp. Eng) (DIT), BEng. (Comp.) (DIT), MSc (Electrical. Eng & Comp. Sc.) (Japan)

C.C. Ngirwa. BSc. (Comp. & Info. Security) (UDOM)

*O.O. Mwambe. BSc. (Comp.) (Ukraine)

Technicians

V. Sichirima. Cert. Trade Test II (Electrical) VETA

*On study leave

6.3. DEPARTMENT OF ELECTRICAL ENGINEERING

The Department offers NTA Ordinary Diploma (level 4-6) in Electrical Engineering, Biomedical Equipment Engineering, and Renewable Energy Technology. It also offers (NTA level 7-8) Bachelor of Engineering program. The department has adequate resources which include laboratory and teaching facilities, twenty four qualified teaching staff members with various qualifications and two competent and experienced technicians. Details of the courses are provided below.

(a). BASIC TECHNICIAN CERTIFICATE IN ELECTRICAL ENGINEERING –(NTA LEVEL 4)

| Module Code | Module Title | Credits |
|----------------------------|--|-----------|
| FUNDAMENTAL MODULES | | |
| SLTP04101 | Statics and Dynamics | 3 |
| GST 04102 | Basic Technical Communication skills | 2 |
| GST 04103 | Entrepreneurship Concepts and Context | 3 |
| GST 04101 | Algebra | 5 |
| CSET 04101 | Computer Basic Word Processing and Spreadsheet | 2 |
| CORE MODULES | | |
| MET 04104 | Workshop Technology | 9 |
| MET 04101 | Basic Technical Drawing | 9 |
| EET 04102 | Principles of DC Networks | 12 |
| EET 04104 | Electrical Installation and Draughting | 12 |
| Total | | 57 |

Semester II

| Module Code | Module Title | Credits |
|----------------------------|--------------------------------------|---------|
| FUNDAMENTAL MODULES | | |
| SLTP04202 | Gravitation & Simple Harmonic Motion | 3 |
| GST 04205 | Communication Skills | 2 |
| GST 04206 | Small Business Development | 3 |
| GST 04204 | Trigonometry and vectors | 5 |
| CSET 04201 | Spreadsheet and Database | 2 |
| CORE MODULES | | |
| EET 04202 | Principles of AC Networks | 9 |

| | | |
|--------------|--|-----------|
| EET 04204 | Design of Electrical Installation Systems | 12 |
| EET 04203 | Electrical Measurement and Measuring Instruments | 9 |
| EET 04205 | Electrical Engineering Materials | 9 |
| EET 04201 | Electrical Power Utilization | 9 |
| Total | | 63 |

Total Credits at NTA 4: 120 Minimum credits required at NTA 4: 120

(b). TECHNICIAN CERTIFICATE IN ELECTRICAL ENGINEERING (NTA LEVEL 5)

Semester I

| Module Code | Module Title | Credits |
|----------------------------|---|-----------|
| FUNDAMENTAL MODULES | | |
| GST 05101 | Fundamental Rules of Counting, Matrices and Differentiation | 5 |
| GST 05102 | Business Communication | 2 |
| GST 05103 | Business Start Up and Management | 3 |
| SLTP05101 | Strength of Materials and Rotational Dynamics | 3 |
| CSET 05101 | Presentation and Internet | 2 |

List of Academic Staff in the Department of Electrical Engineering

Lecturer and Head of Department

S.F.M. Karugaba, BSc. Eng (UDSM), MS Electrical Eng. (USA), PhD Eng. (USA), G. Eng (T), MIEEE (USA)

Senior Lecturers

M. A. Kusekwa, MSc, Eng. (Sofia), PhD. Electrical Power Eng. (RSA) P. Eng (T) C Eng. (T), MIET

Lecturers

**B. B. Saanane, Cert Workshop Mgt (Belgium), MSc. Eng. (Moscow), P. Eng (T) C. Eng. (T), MIET, Ph.D (UDSM)

**C. Msigwa, Msc (Russia), PhD. Electr. Power Sys. (UDSM)

R. C. Kiiza, BSc. Eng. (UDSM), MSc Eng (UDSM), PhD (KTH - Sweden), MIEEE (USA)

T. Ndimba, FTC Elect. Eng. (TCA), BSc Eng (Dar), MSc (Electr.) (UDSM)

G. G. Moshi, B.Sc. (UDSM), MSc EE&RE Sys (UK), PhD (POLIMI)

Assistant Lecturers

S. D. Kabingo, B.Sc. Eng (UDSM), MSc. Eng (USA)

**P. L.T. Yakob, FTC. Tel. Eng. (DTC), Diploma Elect. (DTC) PGD(UDSM), MSc (UDSM)

A. H. Abel FTC. Eng (DTC,) BSc (UDSM), MSc (UDSM)

J. F. Mushi, FTC. Eng (MTC), ADE. Eng. (DIT), MSc (China)

Ass. Lecturers

*M. Juma, FTC Electrical Eng. (KTC), B. Eng (DIT), MSc.(Electrical) (China)

A. Liwondo, ADE (DIT), MEng.MM (DIT)

H. Libani, FTC Electrical Eng. (ATC), B. Eng (DIT), MSc. (UDSM)

Senior Instructor I

D.P. Msangi, DTE (DTC), FTC Eng (TCA)

Tutorial Assistants

*E. Mmari, FTC Electrical Eng. (ATC), B. Eng Electrical (DIT)

E. Michael, FTC Electrical Eng. (MTC), B. Eng Electrical (DIT), P.Eng (T)

Instructor II

D. Bahebe, FTC (Electrical Eng.) (DIT), B. Eng (DIT)

F. Joseph, B.Sc. Eng. (UDSM)

N. S. Nassoro, Dip Electrical Eng. (MUST), B. Eng Electrical Eng. (DIT)

6.4. DEPARTMENT OF ELECTRONICS AND TELECOMMUNICATION ENGINEERING

The Department offers Ordinary Diploma and Bachelor of Engineering (NTA level 4-8) programmes in Electronics and Telecommunication Engineering and Ordinary diploma in communication system technology (NTA level 4-6). It has adequate resources to run its programmes, which include well-equipped laboratories and classrooms, 24 teaching staff and 3 technical support staff members.

6.4.1 Programmes offered by Electronics Telecom Eng. Department

(a) BASIC TECHNICIAN CERTIFICATE IN ELECTRONICS AND TELECOMMUNICATION ENGINEERING (NTA LEVEL 4)

Semester I

| Module Code | Module Title | Credits |
|----------------------------|--|-----------|
| FUNDAMENTAL MODULES | | |
| CSET 04103 | Computer Basics, Word Processing and Spreadsheet | 12 |
| GST 04102 | Basic Technical Communication skills | 2 |
| GST 04101 | Algebra | 5 |
| GST 04103 | Entrepreneurship Concepts and Context | 3 |
| SLTP 04101 | Statics and Dynamics | 3 |
| EET 04102 | Principles of DC Networks | 12 |
| MET 04101 | Basic Technical Drawing | 9 |

6.5. DEPARTMENT OF MECHANICAL ENGINEERING

Mechanical Engineering is the prime mover of any Nation Development. Nothing can be manufactured without the involvement of Mechanical Engineering. Due to fast increase of manufacturing, mining and gas) industries, the well qualified Technicians and Engineers are highly needed. These personnel can be obtained from Dar es Salaam Institute of Technology at the Department of Mechanical Engineering.

The Department offers Ordinary Diploma and Bachelor of Engineering (NTA level 4-8) in Mechanical Engineering. The Department has adequate physical resources to include classrooms, laboratories and workshops. In addition, the Department has 29 teaching staff and technical supporting personnel consisting of 11 members.

6.5.1 Programmes offered by Mechanical Eng. Department

(a). BASIC-TECHNICIAN CERTIFICATE IN MECHANICAL ENGINEERING- NTA LEVEL 4

Semester I

6.6. DEPARTMENT OF SCIENCE AND LABORATORY TECHNOLOGY

Department provides services to all academic Departments in teaching Physical Sciences. The Department has adequate classrooms and laboratory facilities. In addition, it has 32 teaching staff members who are supported by 4 technicians. The Department of Science & Laboratory Technology has four (4) programmes leading to the following qualifications;

- (a) Ordinary Diploma in Science and Laboratory Technology (NTA 4-6)
- (b) Ordinary Diploma in Food Science and Technology (NTA 4-6)
- (c) Ordinary Diploma in Biotechnology (NTA 4-6)
- (d) Bachelor of Technology in Science and Laboratory Sciences (NTA 7-8).

6.7.3 E-LEARNING PROGRAMME

(a) Objective of the E-Learning Programme

e-Learning programme at the Dar es Salaam Institute of Technology was established to:

- Provide flexible, innovative and high quality learning.
- Open access to Tanzania about worldwide eLearning courses.
- Encourage lifelong learning using World Wide Web.
- Designing and developing all DIT courses online.

(b) Courses and Services

To achieve these objectives of providing a wide range of services to Tanzanians and its partner organizations, the department plans to provide:

- Course Design and Development
- Virtual Campus
- Virtual Learning Space
- E-Community
- Research
- Staff Development

(c) Programme Coordinator

e-Learning Coordinator: Vacant

PROFILES OF ACADEMIC RELATED DEPARTMENTS

7.1 RESEARCH AND PUBLICATIONS AND POSTGRADUATE STUDIES DEPARTMENT

The Department of Research and Publications is established purposely in order to implement the Policy for Research and Publications. The overall objective of the DIT Research and Publications Department is to put in place a clear and comprehensive institutional framework, which is conducive for stimulating and sustaining research and publication activities and coordinate the establishment /conduction of postgraduate programmes at the Institute. Specifically the Department has been established with the following objectives.

7.1.1 On Research and Publications

- a) To put in place an appropriate and comprehensive framework for executing, promoting and sustaining research and publication activities at the Institute
- b) To promote research, innovations, technology development and publication activities among members of the DIT.
- c) To increase and effectively coordinate research and publication activities at the Institute.
- d) To create mechanism for staff motivation, rewarding and development of confidence so that each member participates actively in research and publications.
- e) To facilitate the development of the culture of job creation (entrepreneurship development). F) To co-operate/collaborate with other Institutions in undertaking research activities.
- f) To have in place a functional mechanism for promoting research and monitoring the progress of research and publication activities at the DIT.
- g) To develop research acquisition strategic plan.
- h) To enhance dissemination of knowledge.
- i) To establish research and business links with public and private sector.
- j) To conduct workshops, conferences, etc.
- k) To be custodians of research reports and disseminate these reports, where

appropriate, for academic and other use.

- l) To coordinate acquisition of resources needed to conduct research.
- m) To establish means to coordinate research resources and activities.
- n) To establish mechanism for monitoring research funding and disbursement from different sources.
- o) To develop and enhance research capability and research.
- p) To develop intellectual property right policy and be custodian of patents and copyrights at the Institute

7.1.2. On Postgraduate Studies

1. Enhance the existing as well as develop new educational links with other institutions of higher education within and outside the country
2. Coordinate the establishment of postgraduate programmes in Civil Engineering, Mechanical Engineering, Electrical Engineering, Laboratory Technology, Electronics and Telecommunication Engineering, Computer Studies and such other discipline as the Institute shall implement as per strategic plan.
3. Coordinate the Teaching, Examination and Research carried out at postgraduate level.
4. Promotes implementation of Research for postgraduate students
5. Collaborate with the Quality Control Department of the institute to ensure a quality delivery of postgraduate programmes.

7.1.3 . List of staff in the Department of Research, Publications and Postgraduate Studies

Head

F. A. Mamboya, BSc. Chemistry & Mar. Biology (UDSM), MSc. M. Biol. (UDSM), PhD. Biol. (Stockholm, Sweden)

Assistant Head and Coordinator of Postgraduate Studies

R. C. Kiiza, BSc. Eng. (UDSM), MSc Eng (UDSM), PhD (KTH - Sweden)

7.2 Institute Consultancy Bureau

The Institute Consulting Bureau (ICB –DIT) was established/transformed from former RCB to administer and coordinate all Consultancy and Continuing Education including Pre-Entry Courses activities carried out by DIT.

Specifically, it was established with the following main objectives.

- i. To coordinate and promote Consultancy and Continuing Education and Pre-Entry Course activities among members of the DIT
- ii. To oversee the quality of Consultancy and Continuing Education and Pre-Entry Course services and related assignments undertaken by DIT
- iii. To develop DIT's human capacity in Consulting Skills
- iv. To coordinate and facilitate multi-disciplinary Consultancy activities being executed at the institute by staff members
- v. To link DIT-Consultancy and Continuing Education and Pre-Entry Course activities with Industries, National and International Professional Association.

OBJECTIVES:

7.2.1 The objective of the Bureau is to enhance the capability of Dar es Salaam Institute of Technology in order to contribute effectively to the industrial development of Tanzania through the provision of professional engineering consulting services, expert professional services and conduct and administer continuing professional development programmes by using resources at the institute and hence generate revenue for the institute and its staff.

7.2.2 The specific objectives of the bureau shall be to:

- ii. Promote and administer the implementation of consultancy policies and procedures for all commercial activities in the institute that fall under its jurisdiction.
- iii. Enhance the capability of DIT to contribute effectively in the industrial development of Tanzania through the provision of consultancy, expert professional services and professional advancement (or development

engineers and technologists.

- iv. Enable the institute to generate funds to subsidies grants from the government and other donors for the institute to meet its financial needs.
- v. Enables the staff in DIT to supplement their income thus enhancing staff retention.
- vi. Optimize the use of DIT expertise and resource to solve engineering technology and related problems.
- vii. Provide means for academic and other DIT staff to gain professional experience that shall be transferred to students and thereby improve quality of outputs
- viii. Make available DIT training facilities to the general public through short term and medium course for the purpose of ensuring that engineers keep abreast with the rapidly advancing technology
- ix. Acquire knowledge on new development and needs in the trade and adjust curriculum accordingly
- x. Provide expert technical support to existing industry operations and to facilities developments of new industries and their products.
- xi. Establish and offer regular professional development programs for the advancement of local engineering personnel in the industry.
- xii. Facilitate establishment and enhancement of contracts and relations between DIT staff and industries.
- xiii. Provide a platform through which DIT staff can transfer their knowledge and skills to industry and
- xiv. Assist DIT staff to develop competencies in soliciting for jobs and in preparing winning proposals for consultancies and services

Manager

J.N. Mkilania MSc.Eng (Bulgaria) PhD Eng.Mngt (UDSM)

7.2.4. Available Courses for 2016/2017

The following short-term courses have been planned for the academic year 2013/2014. However, the list is not exhaustive as other pertinent tailor made courses can be designed to suit individual groups whenever need arises.

Laboratory Technology

| COURSE TITLE | COURSE CONTENTS | DURATION | TUTION FEE (TSHS) |
|--|---|----------------------|-------------------|
| Advance Level Secondary School Practical(s) | Practical work in Physics, Chemistry and Biology | 6 Weeks 2hrs/day | 30,000/= |
| Ordinary Level Secondary School Practical(s) | Practical work in Physics, Chemistry and Biology. | 6 Weeks 2hrs/day | 25,000/= |
| Laboratory Organization and Management. | Introduction to laboratory organization and management, Laboratory inspection, Laboratory maintenance, stores and chemical storing, Laboratory safety and first aid, preparation of chemistry and biology bench reagent, General knowledge of all equipments and apparatus. | 10 weeks 2hrs/day | 260,000/= |
| Laboratory Instrumentation and Maintenance | Instrumentation, Maintenance and repair of scientific equipments, introduction to computer – Aided experiments and Analysis | 10 weeks 2hrs/day | 195,000/= |
| Chemistry Techniques | Mole concepts and its practical application, calculations of the mole concept, Standard solution, preparation of the standard solution from standard reagent | 10 weeks 2hrs/day | 234,000/= |

| | | | |
|--------------------|--|----------------------|-----------|
| Biology Techniques | Introduction to biology practical work, preparation of biological reagent, Collection, preservatives and preservation of biological specimens, Microscopes: types, care and maintenance, Temporary and permanent preparation of handcut section of plants, examination of prepared slides under microscopes, Practical on food test, Report writing. | 10 weeks 2hrs/day | 195,000/= |
| Physics Techniques | Experimental skills, Experiment in mechanics, Experiments in properties of matter, Experiment in light, Experiment in heat, Experiment in electricity, Report writing. | 10 weeks 2hrs/day | 169,000/= |

Mechanical Engineering

| COURSE TITLE | COURSE CONTENTS | DURATION | TUTION FEE (TSHS) |
|---|--|---------------------|--------------------------|
| Introduction to Computer Aided Drafting (AutoCAD) | Starting the program Use of Drawing tools Modification of features Preparation of layers Preparation of Technical Drawing Dimensioning, Scaling, title block and plotting | 4 Weeks 2hrs/day | 120,000/= |
| Computer Aided Design (Modeling; Solid works, Pro Engineering, etc) | History, definition, field of applications Introduction to parametric software Modeling of parts Modeling of assembly Technical drawing from a model Animation and analysis Plotting | 6 Weeks 2hrs/day | 200,000/= |

| | | | |
|--|---|---------------------|-----------|
| Advanced Computer aided Design (Solid Work, Cosmo works) (For Engineers and Project Managers) | Review of parts, assembly and drawing concepts Complete design exercise -Idea, Concept, Optimisation -Analysis of developed model -Drawings | 8 Weeks 2hrs/day | 300,000/= |
| Project Management (MS Project) | Basic Introduction to Project Management Concept Defining a Project Defining a time line Resource, Assignment & Costs Tracking the work Assignment & Tutorials | 8 Weeks 2hrs/day | 300,000/= |
| Basic welding technology & Practice | Fundamental of Metallurgy, Basic Electrical principles, Manual metal arc welding | 6 weeks 3hrs/day | 240,000/= |
| Intermediate welding technology | Workshop safety, Welding Science, Metallurgy, Oxy-acetylene welding, Arc-welding Process, Arc-welding Practice, Oxy-acetylene welding practice. | 9 weeks 3hrs/day | 320,000/= |
| Modern welding | Modern welding Welding processes: Welding hazards & prevention. Welding Techniques Simple weld estimates | 6 weeks 3hrs/day | 200,000/= |
| | | | |
| Basic foundry technology | Tools and equipment for moulding, patterns and core. Casting techniques and finishing operations. | 6 Weeks 3hrs/day | 200,000/= |

| | | | |
|---|--|----------------------|-----------|
| Industrial energy management | Data gathering and analysis, Electrical metering and tariffs, Insulation, Plant survey, Refrigeration and heat pump systems, Fuel fired equipment, Steam generation and | 3 Weeks 3hrs/day | 90,000/= |
| Advanced refrigeration and air condition | Advanced Psychometric, Central A/Conditioning system-Design, Construction and Maintenance. Duct design and construction, Cold room design and construction | 6 weeks 3hrs/day | 190,000/= |
| Intermediate refrigeration and air conditioning | Refrigeration systems, parts and construction repair of refrigerators and freezers Maintenance of refrigerators and system Psychometric Principles of operation of air conditioners Repair and service air conditioners | 12 weeks 3hrs/day | 280,000/= |
| Motor Vehicle Mechanics (General) | Engines – (Internal Combustion engine) Petrol, Transmission System (manual), Suspension System, Basic Auto-electrics (Simple) | 12 weeks 3hrs/day | 300,000/= |
| Auto-Electric | Battery Systems. Ignition system Charging System Starting, Light etc System Simple car Electronics Other accessories | 6Weeks 3hrs/day | 240,000/= |
| Electronic Fuel Injection | Basic electronics, Principles of Petrol fuel injection. Electronic fuel injection. ECU. Sensors and their function. | 6 Weeks 3hrs/day | 240,000/= |
| Diesel Engine (CIE) | Principles of operations. Injector pumps. Injector Nozzles. Governors. Phasing and calibration. | 4 Weeks 3hrs/day | 240,000/= |

Electronics and Telecommunications Engineering

| COURSE TITLE | COURSE CONTENTS | DURATION | TUTION FEE (TSHS) |
|--|--|-----------------------|--------------------------|
| Basic Electronics | Passive Electronic components:- Resistors, capacitors, inductors Active Electronic Components:- Diodes, transistors, Integrated circuits, diacs, triacs, thyristors | 4 Weeks (60 hours) | 250,000/= |
| Digital Electronics | Number systems, Logic gates and logic expressions, sequential logic circuits, logic families, Memories, Design and troubleshooting of digital circuits and systems | 4 Weeks (60 hours) | 200,000/= |
| Practical electronics | Direct and alternating current (DC and AC), Resistors(types, values and colour coding), capacitive and inductive Networks, Resistivity and conductivity, Semi-conductor diodes and their applications, Transistors and their applications, IC application, Amplifiers and oscillators, Common emitter, Field Effect transistors, logical fault finding | 8 Weeks 2hrs/day | 250,000/= |
| Television and radio repair | Basic electricity and Electronics, Devices and measuring Instruments, A.C circuit and tuned circuit, Radio waves propagation and bands, Amplifiers, Radio receiver operation principles, TV camera and picture tube operation, Principles of Audio and Video tape recording, Service equipment and application, Trouble shooting exercises in TV and Radio | 12 Weeks 3hrs/day | 400,000/= |
| Satellite Dish Design and Construction | | 4 Weeks (60 hours) | 340,000/= |
| Maintenance of Electronic equipment and Instrument use | Voltmeter usage, Ammeter usage, ohmmeter usage, Oscilloscope usage, Diode testing, Transistor testing, IC testing, Amplifier trouble shooting. | 10 Weeks (96 hours) | 400,000/= |

| | | | |
|--|--|-----------------------|-----------|
| Communication System Design(CSD) | Integrated network design (Fibre, VSAT and WiFi Technology), Site knowledge/survey, Site implementation device and tools, Network implementation, Network maintenance, Field work. | 4 Weeks (96 hours) | 500,000/= |
| Electronic & Electrical equipment maintenance & repair | PA systems, Audio equipment, motors, ac, dc, TV systems, gymnastic equipment | 4 weeks (96 hrs) | 300,000/= |
| CCTV Camera Installation, Monitoring and Servicing | Analogy CCTV, IP CCTV and wireless CCTV installation and configuration, CCTV monitoring CCTV system repair and servicing | 3 weeks 2hrs/day | 350,000/= |

Electrical Engineering

| COURSE TITLE | COURSE CONTENTS | DURATION | TUTION FEE (TSHS) |
|--|---|----------------------|--------------------------|
| Renewable Energy | Voltage size nomination, Load calculation, Switch gear choice, Solar module selection, Battery sizing, Installation procedures, Cost estimation, Analysis of different seasons of the year, Charge controllers, Inverters and TBS specifications for solar PV system. | 3 months 3hrs/day | 550,000/= |
| Maintenance of Electric Equipment and Industrial Instrumentation | Introduction to electrical system(AC, DC, 3 Φ , 1 Φ) Introduction to an electrical equipment, Introduction to an electrical maintenance, Basic electricity, AC Circuit and DC circuit, IEE Regulations, Electrical design | 9 weeks 2hrs/day | 300,000/= |
| Winding of Electrical Machine | Basic concept of winding. A.C windings. -Single phase winding -Three phase winding D.C winding. | 3 months 3hrs/day | 400,000/= |

| | | | |
|--|--|-----------------------|-----------|
| Electrical Installation (domestic and Industrials) | Single phase installations (various). Three phase installations (Various). | 8 Weeks 3hrs/day) | 400,000/= |
| Industrial Process Control | Control loop theory. Control modes. Process gain and dynamics. Non linear adaptive control. | 3 months 3 hrs/day | 320,000/= |
| Digital circuits and converters. | Combination and sequential logics design, Analogue to digital and Digital to analogue converters | Months 2hrs/day | 350,000/= |

Building and Civil Engineering

| COURSES OFFERED | DURATION | TUTION FEE (TSHS) |
|---|-----------------|------------------------------|
| Supervision of construction works | 3weeks | 450,000.00 |
| Building construction and maintenance | 3 weeks | 450,000.00 |
| Quality control – testing of engineering soils, Aggregates and bituminous materials | 3 weeks | 450,000.00 |
| Quality control – testing of engineering soils, Aggregates and bituminous materials | 2 weeks | 450,000.00 |
| Civil engineering computer applications part I | 4 weeks | 250,000.00 |
| Surveying for civil engineering and building Technicians and engineers | 3 weeks | 450,000.00 |
| Construction and maintenance of low cost highway structures | 3weeks | 450,000.00 |
| Safety on highway work zones | 2 weeks | 300,000.00 |
| AutoCAD for architectural design | 4 weeks | 350,000.00 |
| Entrepreneurship/business management | 4weeks | 200,000.00 |
| Design of low cost water supply projects | 3 weeks | 450,000.00 |
| Labour based road maintenance for earth roads | 4 weeks | 450,000.00 |
| Highway Structures maintenance | 3weeks | 450,000.00 |
| Fire safety in building structures | 2 weeks | 300,000.00 |
| Contract administration | 3 weeks | 450,000.00 |
| Site management (general) | 4weeks | 600,000.00 |
| Health and safety in construction sites | 4weeks | 600,000.00 |

| | | |
|----------------------------------|--------|------------|
| Maap 5 – traffic safety analysis | 4weeks | 600,000.00 |
| Solid waste management | 4weeks | 450,000.00 |

Note:

1. Starting date is every 1st Monday of the Month
2. Time for course teaching and learning is 4.00 – 6.00 pm every day of the course

GENERAL STUDIES DEPARTMENT SHORT COURSES

| COURSE TITLE | COURSE CONTENT | DURATION | TIME | STARTING DATE | TUITION FEE (TSHS) |
|--------------------------------|---|-----------------|---------------|-------------------------------|---------------------------|
| Revisions on Basic Mathematics | Fractions, Decimals and percentages. Compounding, Discounting and Amuty, Applied Calculus. Matrix operations. Time value of money. Cost Revenue and Profit | 6 Weeks | 4:30- 6:30 pm | Every first date of the month | 250,000/= |
| Introduction to statistics | Data collection. Statistical measure. Regression and correlations. Time series analysis Index number Probability Theory | 6 weeks | 6:30-8:30 pm | Every first date of the month | 300,000/= |
| Applied statistics | Basic Review on probability Theory. Statistical Inferences. Hypothesis Testing. Correction and Regression. | 6 weeks | 4:30-6:30 pm | Every first date of the month | 400,000/= |

7.3 DEPARTMENT OF INDUSTRIAL LIAISON AND CAREER GUIDANCE (ILCG)

7.3.1 The main objective of the department is to provide guidance for efficient and effective coordination of Industrial Practical Training (IPT), career counseling for the Institute's students, job placement and follow up of Institutes graduates.

To accommodate the objectives, the department has two functional sections mainly:

- IPT Coordination
- Career Counseling

The main link between the ILCG Department and other academic departments is through the Departmental IPT and Career Coordinators.

(a) IPT Coordination Section deals with:

- i. Soliciting IPT placements for all students at the Institute
- ii. Planning and coordinating IPT supervision
- iii. Coordinating study visits for students and staff to industries and companies
- iv. Coordinating study visits for students and staff from other Institutions
- v. Coordinating professional lectures for students in and outside the Institute
- vi. Coordinating staff professional attachments to industries and companies
- vii. Coordinating employment opportunities for the Institute's graduates

(b) Career Counseling Section are:

- i. identifying and providing solutions to existing potential recruitment problems for the graduates
- ii. identifying, coordinating and streamlining professional requirements

- against industry employer's needs and demands
- iii. organizing and coordinating job placements and career guidance services
- iv. organizing and managing database on DIT graduates
- v. locating the whereabouts of the DIT graduates in the industry
- vi. soliciting feedback information on DIT graduate's performance at their respective work stations and establishing a benchmarking system
- vii. coordinating matters related to facilities in exhibitions and publicity

7.3.2 Industrial Practical Training (IPT)

IPT is one of the modules included in all academic programmes at the Institute. It is therefore an essential integral part of the entire training. The main objective is to provide an opportunity to students to merge theory and practical

Industrial practical training (ipt) structure

IPT module has specific credit values realized in specified time as shown in the table below.

| IPT MODULE | Qualification level | Recommended Timing of IPT | Credit | Duration |
|-------------------|------------------------------|--|---------------|-----------------|
| IPT I | NTA level 5 (First Semester) | End of Semester of NTA Level 4 | 10 | 10 weeks |
| IPT II | NTA level 6 (First Semester) | End of 2 nd Semester of NTA Level 5 | 10 | 10 weeks |
| IPT III | NTA level 7 (Third Semester) | End of 2 nd Semester of NTA Level 7 | 12 | 9 weeks |
| IPT IV | NTA level 8 (First Semester) | End of 4 th Semester of NTA Level 7 | 12 | 9 weeks |

IPT Modules are treated as courses of succeeding year for all OD and Beng Programmes.

7.3.3 List of Staff in the Department of Industrial Liaison and Career Guidance

Head of Department

John A. Msumba

FTC Eng (DTC), ADE (DIT), BSc. (Hons) Electronics (Pretoria, RSA), MSc. (Electronics) (Pretoria, RSA), PhD Electronics (UKZN- RSA), Grad. IET, Grad T. ERB.

7.4 LIBRARY SERVICES

One of the major aspirations of the DIT is to continuously expand its library services in order to foster learning skills of its students and improve professional working conditions of staff. The Institute has at present a library whose collection is primarily geared towards providing materials and documentation services to support teaching and learning activities. The collections include materials for major courses in the fields of Electrical Engineering, Civil Engineering, Mechanical Engineering, Electronics and Telecommunications Engineering, Laboratory Technology and Computer studies. Also, it offers materials for supporting subjects such as Mathematics, Communication Skills, Development Studies, Labour Law and Engineering Management. According to the statistics of the previous stocktaking the library has a total number of 3,000 documents. These include up-to-date textbooks, professional journals, theses, manuals, directories, bibliographies, reports, research papers, encyclopaedias and handbooks.

Membership: Any person attending a course or working at DIT is entitled to the use of the library services, and therefore allowed to register him/ herself as a member. The library facilities are available to all students with valid Identity Cards. However, for students, a token membership fee of five thousand shillings (10,000/=) annually is contributed.

Every student shall enjoy the services of the Institute's Library except for those students who for any good cause; have been banned from use of such services and those services shall be available to students at such hours as the management may prescribe. Any student borrowing books, periodicals, magazines or any document from the Library shall personally be responsible for their care, safety and shall return them to the issuing offices or Librarian on the specified date for their return.

Opening Hours

| | |
|-------------------------------|----------------|
| Monday – Friday | 0900 -2000 hrs |
| Saturday | 0900 -1300 hrs |
| Public Holidays and Sunday | closed |

The Library management aims to automate its library information materials to create easy and quick access. In line with that, it will create access to CD – ROM titles, E-books, E-journals, Internet searching and e-mail communication within the library.

7.5 INFORMATION TECHNOLOGY (IT) SERVICES DEPARTMENT

The Department engages actively with the Institute community, soliciting its current and changing requirements in support of the Vision and Strategy in order to:

- meet users' expectation and needs for high quality service in ICT, Information resources and print
- deliver those services effectively , efficiently and responsively
- develop and enhance close partnership with department and other institute so as to encourage the best working practice
- plan ahead cooperatively to keep pace with change in it providing leadership for innovation in ICT
- deploy with economy and efficiency it resource of people , money , space and equipment

7.5.1The key objectives for the IT Services Department

- (a) implement strategies for improving ICT infrastructure and for support to teaching staff involve the department's staff in developing the new culture in ICT
- (b) play a leading role in developing and implementing the Institute's ICT/Information Strategy
- (c) exploit the opportunities for the future Learning Resource Centre to improve support for teaching, learning and research
- (d) Contribute to and enhance Institute initiatives in open and distance

learning, lifelong learning, regional development and other outreach services

(e) Improve service quality to students (e.g. inter-library loans, enquiry handling, registration for ICT services etc.

(f) Improve robustness, resilience of ICT systems in the Institutes.

7.6 INDIA - TANZANIA CENTRE OF EXCELLENCY IN INFORMATION AND COMMUNICATION TECHNOLOGY (ITCoEICT)

7.6.1. Introduction

The India-Tanzania Centre of Excellence in Information and Communication Technology (ITCoEICT) was established in 2009 as a result of bilateral relation and cooperation between the United Republic of Tanzania and Government of India. The project implementing agencies on behalf of Tanzania and India are Dar Es Salaam Institute of Technology (DIT) and India Centre for Development of Advanced Computing (CDAC) respectively. The principal objective of the Center is to promote development of Information and Communication Technology in the United Republic of Tanzania. In order to realize this noble objective, the Centre engages in various professional activities in ICT including provision of video conferencing, telemedicine & e-learning facilities, High Performance Computing and conducting modular short-term proficiency courses in Information Technology.

7.6.2 Vision and mission and functions of the centre

Vision:

To create a world class IT Centre for IT skills, problem solving and connecting people through cyberspace

Mission:

1. Conduct modular short-term proficiency training courses in Information Technology.
2. Provide training on the entire project life cycle i.e design, development, testing, trials debugging, customization, standardization, support services, etc.
3. To utilize the Centre and its and Communication Information centers (CICs) located in Posta offices countrywide for offering various services, such as distance learning.
4. Build capacity for, and promote the use of High Performance Computing in Tanzania.

5. To utilize the CoEICT as a Centre for Disaster Management and National Data Centre by government for making the data of national interest available to government and Public.

Functions of the Centre:

1. Develop and offer professional, tailor made ICT programs
2. Develop and offer e-learning programs and Telemedicine services
3. Attract and publicize the use of Supercomputer for leaning, research and business applications.
4. Collaborate with other institutions local or foreign to offer ICT related courses and services

7.6.3 Main Pillars of the Centre

The Center is divided in three units, namely High Performance Computing section, Telemedicine & e-Learning section and IT Professional Courses section.

(a) High performance computing section

This section is equipped with a Linux (REDHAT) based supercomputing cluster code named "PARAM Serengeti". The facility includes 20 TeraBytes of raw storage and 38 TeraBytes of tape backup along with relevant backup software. Currently the facility is installed with various scientific applications in Bioinformatics, Atmospheric Science, Oceanography, Computational Fluid Dynamics, Finite Element Analysis, Seismic Analysis, Materials Modeling, and Data Visualization Tools. Other applications can be installed as needed. Current visualization tools include Grads and Ferret.

Interconnect:

- 8-ports PARAM III Primary interconnect
- 24-ports infiniband Silver-strom secondary interconnect
- 24-ports Nortel Gigabyte switch 1000BASE-T 1000Mbps for cluster management

Security:

1. A firewall designed to permit or deny network transmissions based upon a set of rules to protect network from unauthorized access while permitting legitimate communications to pass.
2. Authentication server set up to provide authentication services to users or other systems.

(b) Telemedicine & E-learning Section

The Dar Es Salaam Institute of Technology is participating in the National Telemedicine Pilot project by connecting seven (7) hospitals: Muhimbili National Hospital, Amana, Temeke, Mwananyamala, Tumbi, Bagamoyo and Mbeya Referral Hospital. The connectivity part is completed; plans are underway for the inauguration. The pilot is using the **Sanjeevani** telemedicine software which was provided by CDAC. The Center is providing the software, the facilities as well as expertise. Other partners include Ministry of Health; Ministry of Communication, Science and Technology; Muhimbili National Hospital; and the Universal Communication Access Fund. The purpose is to enable continuous medical education, consultation between the regional hospitals and the National Hospital.

Hospitals which are already connected include Muhimbili National Hospital, Amana, Mwananyamala, temeke, Bagamoyo, Tumbi and Mbeya referral Hospital. Services offered by the network include Tele-Consultation and Tele-Education. Plans are underway to connect MOI hospital, Mnazi mmoja hospital in Zanzibar, Bugando Hospital, KCMC, Ocean Road, Mirembe and Kibong'oto.

Live telemedicine (between the six hospitals) was demonstrated during the Smart Partnership Global Dialogue 2013 <http://www.globaldialogue2013.go.tz/> that took place from 28th June to 1st July 2013 in Dar Es Salaam, Tanzania. ITCoeICT still provides technical support to the project in all hospitals. The center is in discussion to upgrade the Sanjeevani software to the web based E-Sanjeevani.

Equipments Installed:

- ECG Machines
- Microscope
- Video-Conference
- Digital cameras

7.6.4. IT PROFESSIONAL COURSES SECTION

The section is in charge of conducting modular short-term proficiency courses in Information Technology. These courses are designed to address various ICT challenges which our country faces such as low computer literacy rate among ordinary citizens and insufficient local IT workforce. Therefore, the training section offers variety of Information Technology professional certificate courses ranging from Computer Basics, Specialized Software packages to Advanced Computing. The courses target towards the Tanzania Citizens from varied background who aspire to make an intelligent use of computers or make successful career in the local IT industry.

Courses Objectives

1. To provide ICT professional skills to individuals who aspire to make successful career in ICT industry as programmers, network administrators, website developers, Graphics designers, Desk Top Publishing operators, and so on.
2. To raise level of computer literacy among employees by providing relevant ICT skills that could enhance their job performance in their day-to-day operations.
3. To provide hands-on skills in using specialized computer applications such as statistical and accounting packages in processing statistical and financial data.
4. To prepare would-be computer trainers such as school and college teachers.

Community Information Centers (CIC'S)

ITCOEICT in collaboration with Tanzania Post Corporation and Kibaha Education Center is running Community Information Centers which offer modular short-term proficiency courses in Information Technology. All courses running at ITCOEICT headquarters in Dar es Salaam are also conducted at these centers which are located in the following Post Office buildings: Bagamoyo, Zanzibar, Arusha, Mwanza, Iringa, Mbeya, Morogoro, Dodoma, and Mtwara. The tenth CIC is located in the building of Kibaha Education Centre, Kibaha.

7.6.6. RESEARCH & DEVELOPMENT SECTION

The Section of ICT professional programs is not confined to training activities only. Plans are underway to open new section that will support research and consultancy activities in the area of ICT service support. The section will also engage in software

production to meet demands of customized software packages for small-to-medium scale businesses in the local market.

7.6.7. LIST OF STAFF IN IT-COEICT

Lecturer and Acting Head of the Center

J.W. Matiko, FTC Eng (DIT), Beng (DIT), MSc. Lund (Sweden), PhD,

CHAPTER EIGHT

GENERAL INFORMATION

8.1 BEST STUDENTS' PRIZES AND AWARDS

In order to promote learning competitions among students, the Institute, used to award prizes to the best three students in each academic Department who have shown outstanding performance in academics for all the subjects carried out in an academic year. However, the prizes and awards to best students will now be decided by the DIT management. In addition, other prizes are awarded by different sponsors (individuals and companies) to best students in various fields from different Departments. Information regarding awards and prizes will be released to students by the DIT management before the graduation Day of each academic year.

8.4 STUDENTS' ACCOMMODATION

Currently, DIT has a limited number of rooms in its hostels to provide accommodation to all students. Students are encouraged to look for private accommodation in the city. For the limited accommodation spaces available, Institute Students Accommodation Bureau (ISAB) will use criteria stipulated in Accommodation Policy in allocation accommodation for students preferentially for those who have applied for accommodation from ISAB. Students' hostels are located within the DIT compound and Chang'ombe area.

Student who will secure accommodation in DIT hostels are required to bring with them; pillows, bed sheets, blanket and mosquito nets. Every student shall, before being granted institutes' accommodation pay a prescribed accommodation fee.

Every resident student shall observe accommodation rules and regulations. These include, but not limited to, the strict requirement for all students to vacate their rooms and hand-over their room keys to the Janitor/Warden during vacation and Industrial Practical Training periods. Residents are not allowed to sublet, use illegal drugs as well as not to cook in hostels or employ house girls/boys for cooking and laundry duties.

8.5 STUDENTS' ADMINISTRATION

Most of the students' activities at the Institute are organised by the DIT Students Organisation (DITSO) under the coordination of the Office of the Dean of Students. The Organisation is concerned with the student's academic, political, social and recreational activities. Every student becomes a member of DITSO (DIT Student Organisation) and students are advised to make their academic life meaningful by making their Organisation contribute positively towards the Institute Vision, Mission and its objectives.

8.6 STUDENTS' CATERING SERVICES

NTA Level 4-6 students are not paid meal allowances, instead, meals are provided by the Institute in a dining hall located in the campus. Menu depends on the ability of the sponsor. B.Eng students obtain their meals from a number of points providing catering services within the proximity of the Institute. The same applies to all day and private sponsored students.

8.7 MEDICAL SERVICES

The Institute has a Health Care Unit for students, staff and their families. The Unit provides outpatient services to NHIF members and on cost sharing basis to non-NHIF members and may refer to other hospitals if necessary. Students are encouraged to bring with them NHIF cards and for non members a special health insurance package for students has been introduced by the NHIF. Each non-member student should make early consultation with the Institute Students NHIF

Officer to get registration forms for students to fill. Currently, the amount to be paid by individual student is TZS 50,400/= per academic year. The amount to be paid regarding medical insurance cover is clearly stipulated in the college fees structure. Students are directed to report at the Health Care Unit each time before they embark for any referral treatment.

8.8 GENDER MANAGEMENT UNIT (GMU)

The DIT- Gender Management Unit (DIT_GMU) was established in 2000 to advocates all the gender related issues at DIT including gender equity and efficiency in education and training. GMU recognizes and addresses gender issues and problems as stipulated in *the DIT corporate strategic plan 2003/2004-2017/2018* sections 6.1.4, 6.5.6 and 6.6 under specific Goals number 4 and 5. Goal 5 emphasizes on improving Gender balance amongst staff and students.

The DIT-GMU closely works with the Management in an attempt to intensify efforts to admit more qualified female students and recruit female staff to address gender imbalance. It also works closely with the management in an attempt to ensure supportive learning environment to both male and female.

GMU provides counseling services to new students during the orientation period and whenever needed in collaboration with the Dean of Students' Office.

PROMOTING AND SUPPORTING FEMALE STUDENTS

a) Pre entry Programme

Through the GMU, DIT started Pre-entry course for students (especially female students) who have weak grades to qualify for direct admission to DIT programmes for Ordinary Diploma and Bachelor of Engineering. The aim of Pre entry course is to boost their educational grades to a level of admission requirement for the Government sponsored students, with a special focus of access to many female into the program. These efforts have shown a significant improvement on female enrolment at the Institute.

In collaboration with the Department of General Studies, GMU coordinates Pre-entry courses each year (for 10/12 weeks) for female and male students who aspire to join full time courses at DIT. Furthermore, the Unit is engaged in securing fund from various donors for female students to undergo Pre entry course and for those who successfully complete Pre-entry courses to join DIT for full time programs. The Ministry of Communication, Science and Technology every year donates fund which is used to sponsor 21 best female graduates of Pre entry into various OD programs for 3 years.

Gender sensitization programs

- i. GMU Conducts sensitization campaigns to selected secondary schools in different regions to encourage female students join Science and Engineering/Technological fields.
- ii. Creation of gender awareness in the DIT community through seminars and workshops as per the Action Plan or when budget allow.
- iii. Incorporation of Gender modules in the Curricula for all DIT programmes (O.D and B.Eng.) through Entrepreneurship module GST 04103.
- iv. In collaboration with HIV/AIDS Coordinator, Dispensary unit and Dean of Students' office, GMU makes provision of *counseling services* to students and employees. In this way, other gender issues or problems are addressed.
- v. Promoting gender empowerment to Gender Task Force members so as to enable the team to mainstream gender in some DIT programs and documents. Furthermore, GTF solicit resources for running some GMU activities and other related projects for staff and students.

b) The Sponsorship for Female Students

In an attempt to ensure gender mainstreaming, GMU constantly make efforts to solicit fund from various sources to sponsor female students. GMU therefore, from time to time ensures limited sponsorship for OD female students admitted in the Institute.

8.9 RENTAL SERVICES

DIT possesses a variety of renting facilities, which are available for use at reasonable charges. Its ideal location in the city centre makes it possible for excellent use and access of these facilities for interested users.

- DIT has 19 engineering workshops and 4 science laboratories that can be used for providing both training and production services to students and outside community.
- It has 26 classrooms which can be rented during weekends and when students are on vacation or industrial training.
- The DIT library has adequate facilities to cater for meetings and/or conferences with up to 100 participants. The facility is available to the outside community for renting, when it is not in DIT use.
- An executive room with a sitting capacity of about 20 people is also available for renting. This room is furnished with soft chairs and can be ideal for small workshops, meetings and other similar forum. The strategic central location of DIT makes this offer most attractive.
- DIT hostels and the Dining Hall may be available when students are out for vacation

CHAPTER NINE

MWANZA CAMPUS

Message from the Head

Dr. Albert G. Mmari

DIT Mwanza campus continues to serve societal needs and excel in academics. In the new academic year 2017/18, I am pleased to inform you that, we have introduced a one year Leather based programme, Basic Technician Certificate in Leather Products Technology, leading to a National Technical Award (NTA Level 4). This adds up to the existing programme and courses, Ordinary Diploma in Science and Laboratory Technology, Leather Craft Tanning, Basic Shoe and Leather Goods Making, and Information and Communication Technology.

To spearhead realization of Tanzania industry economy by year 2025, DIT Mwanza campus has revolutionised Leather Processing and Leather Products Technology trainings by adopting a teaching factory approach, whereby trainings are interactively linked to real life factory/industrial businesses. In addition to that, we continue to support the Tanzanian hides and skins derived industries to leather products development.

With these achievements and more to come, we thank all developing partners including, the Prime Minister's Office, Ministry of Labour, Youth, Employment and People with Disability, with whom we have entered a Memorandum of Understanding for Skills Development Training to One thousand youths in Leather Industry, and United

Nations Industrial Development Organization (UNIDO) for human resources capacity building to mention a few.

We are optimistic to realize our vision and mission.

"A GOOD DEED IS NEVER LOST"

Programme offered at DIT Mwanza Campus

9.1. Mwanza campus has a Teaching Tannery, Footwear and Leather Goods workshops classrooms and laboratory facilities. In addition, it has 9 academic staff members. The campus has two (2) programmes leading to the following qualifications;

(a) Ordinary Diploma in Science and Laboratory Technology (NTA Level 4-6)

This programme is the same as the one offered at Dar es Salaam campus;

(b) Basic Technician Certificate in Leather Products Technology (NTA Level 4)

BASIC TECHNICIAN CERTIFICATE (NTA LEVEL 4)
