Message from Chairman

Dr. Devendra K. Modi
Chancellor - Chairperson, Dr. K.N. Modi University
 B. Tech (Chem. Engg.) M. A. (Eco), MBA, PhD, D. Litt.

My parents vision, beliefs, deeds and activities were all pervasive and wholesome. They not only contributed to the growth of Modi Enterprises but also operated in larger context for the wholesome development of Industry nationally and internationally besides promoting social welfare, culture,

sports, research, rural development, education and social development. As such it would be formidable to narrate their belief, visions, deeds etc, in totality but as a mark of homage to both of them, emulating remembrance we have established Dr. K.N. Modi University.

I welcome you to Dr. K. N. Modi University, an institution that we have conceived as a landmark centre of higher learning. Indeed, our intention has been to create a university that will truly set standards in academic and technical education and become a benchmark institution in its category in the region.

Towards this, we have taken every necessary step to develop the finest infrastructure, ranging from state-of-the-art classrooms, laboratories, comfortable hostels and residential quarters. Well experienced, research oriented faculty and creative excellent network with leading Industry, are a few unique feature.

I invite you to join The University and experience the difference for yourself.

A very warm welcome to our vibrant family.

Best Wishes

Message from Vice Chancellor.....

Prof. (Dr.) Devendra Pathak
Vice Chancellor
 Dr. K.N. Modi University
 MA, MBA, PGDSW, CAIIB,
 AMT, PhD(BU), PhD(USA)

Education has always been considered as the building block of a society. Developing countries especially India emerging as the 4th largest economy of the world needs a pool of qualified professionals to meet the challenges of the 21st century. While Indian academic institutions lack widely in quality education and market driven curriculum, the ever changing scenario necessitates a paradigm shift in redefining, reorienting, and reinventing the whole gamut of academic delivery.

The existing academic environ has to adopt greater flexibility with cutting-edge knowledge, change in focus on what to deliver and how to synchronize with rapidly changing situations, fostering quality leadership through better emotional quotient and providing quality with value based teaching with stress on ethics and better governance.

Flying on the wings of hope, driven by passion to create new synergy and ignited by zeal in pursuit of excellence, I extend a hearty welcome to you all to walk in our Campus, and join this great seat of incubation and learning to emerge as a change leader.

NATIONWIDE

Behind the establishment of the Dr. K.N. Modi University are the seeds of caring and social service sown by one of India's most distinguished sons. Late Dr. Kedar Nath Modi (1922-2005), leading industrialist and philanthropist, set up the foundation that, continues to carry on his work of promoting education, establishing community welfare facilities even supporting the needy and less privileged.

For 74 years the torch of commitment has been burning brightly and spreading the light of knowledge everywhere. Under the able guidance of Dr K. N. Modi, the entire movement towards providing quality academic and professional learning took root starting with the setting up of the first school in the year 1942 in Modinagar.

VISION | “To become one of India's most respected self financed education providers and a leading center of innovation & learning, imparting quality education across all levels.”

EDGE FOR INDUSTRY READINESS:

It is a known fact that over the past decade, career opportunities have increased dramatically owing to strong economic growth. Despite this, a large number of fresh graduates fail to find suitable employment as they are unable to meet the skill and productivity level expected by the industry. This skill gap is a combination of lack of technical skills as well as personality and communication skills. While the university curriculum imparts great conceptual grounding, there keeps emerging a need for industry readiness through skill upgradation on new technologies as well as communication skills and personality development.

The University in collaboration with center for Electronic Governance (Govt of Rajasthan) offering training program on emerging subjects like Big data Hadoop, Engine Automation and CATIA. The students undergo various employability test from time to time. For example, Elitemus, AMCAT, Career matrix, VBOX, West etc.

A dedicated Industry-Connect Cell coordinates with leading organizations across industries for providing industry exposure along with appropriate career opportunities.
