1.1. *Symbiosis School of Economics (SSE)*

Established in 2008, SSE is a bright, young, vigorous and growing institution, with a demonstrable record of success. This very niche institute seeks to develop intellectual discipline, critical and analytical assessment, which will result in rational thinking, along with an understanding of the need for constrained optimization, and a strong urge to strive towards achieving equilibrium. We at SSE, achieve these goals in an educational environment committed to excellence and academic freedom.

1.1.2.2. Research at SSE

Faculty at SSE are involved in research in various fields. Students are encouraged to assist on research projects to enhance their learning and research experience.

- **Urban Development** – Faculty at SSE have been actively and consciously engaging with researchers, practitioners and academicians over the last few years and developed an informal shared network on various issues, pertaining to the urban agenda. SSE looks forward to starting an Urban Development Centre with the objective to have a focused approach to urban issues, which provides the necessary leverage to implement strategic interventions, test its efficacy and re-orient future responses through outcome measurement/evaluation. The identified focal themes include Governance, Transport, Poverty, Basic Services for Urban Poor (Slums & Housing in Slums) and Urban Finance.
- **Sustainable Development**- Faculty researching in this area are exploring how innovation and technology could play a pivotal role in sustainable development. They are also investigating the implications of linkages between FDI, international trade, innovation and the behavioural pattern of skillful human development.
- **Emerging Economies** – The changing dynamics of the world economy in favour of emerging economies and the increasing knowledge pool and information on these economies are going to be instrumental in radically transforming the global economy and sociopolitical dynamics, by giving rise to new solutions through research insights for a better understanding of how markets, institutions and technologies will interact in the near future. SSE has a research thrust area for Emerging Economies in order to establish

research and consulting linkages between the Government, corporate, researchers and think tanks.

- **Behavioural and Experimental Economics** – SSE faculty have been working closely with corporate organizations to approach challenges in the HR and Marketing spaces, using Behavioural economics. Faculty research in experimental economics is aimed towards examining how various aspects of identity and institutions influence decision making by conducting experiments and applying relevant econometric analysis.

1.1.2.4. About M.Sc Economics

The M.Sc. Economics programme is interdisciplinary. The programme seeks to develop intellectual discipline, critical and analytical thinking with a view to groom passionate individuals capable of taking up responsibility. We have a highly rigorous and relevant curriculum, catering to the dynamic nature of global markets. We, at SSE, strive hard to create an enabling framework to facilitate the smooth translation of skills to jobs.

We select the best students from the applicant pool and provide them with a platform where their skills are put to test. To safeguard the efficacy of the program, SSE has a highly comprehensive screening process. This induction criterion serves as a filter to enroll the best candidates across different disciplines with proven excellence not just in academia but also in extracurricular activities. We have an eclectic mix of student backgrounds ranging from economics, commerce, mathematics, statistics, management, and marketing. This diversified student base brings to the table a broad set of ideas, innovations and a broad framework of dynamic iterations. This talented student community, together with the knowledge ethic imbibed at SSE ensures that students are prepared to take on roles as managers, economists, statisticians, analysts and entrepreneurs.

SSE adopts innovative and proactive methods of pedagogy with emphasis on holistic developments of individuals. The coursework has been designed to acclimatize students to the rigors of a highly competitive workplace. Inherent with the coursework is a system of Continuous Evaluation (CE) that provides critical evaluation of a candidate's performance from time to time. The curricula places a lot of importance on intensive application based research and analysis. Further, to strengthen the skill set, the students undergo workshops where they are trained to handle and implement data packages and software like SPSS, STATA and R.

As part of the course, all students are required to complete a two-month Industry Internship. The objective of the internship is to give students the opportunity to experience real world applications of theories they have studied. At the end of the two years, students are well prepared to face the challenges of academia, research, business and industry requirements.

1.1.2.5. Some frequently asked questions about the M.Sc Economics Programme at SSE

1. Why a Master's Degree?

A Master's degree allows a student to be fully immersed in a subject matter they obviously feel passionate about. It gives you an advanced knowledge on a specialized area in theoretical and applied sense and/or professional application. Apart from giving you an advantage while competing for jobs, a Master's degree is often considered for certain higher-level positions in the fields of business, public policy, consultancies, administration, academia and research.

2. What is MSc Economics?

A Master's degree, with a strong background in Economic Theory, Mathematics, Statistics and Econometrics, incorporating contemporary economics, provides the basis for acquiring special focus within the related fields and subfields of Economics. The importance of quantitative skills is not unknown to Economists; courses in Mathematics, Statistics, Econometrics, Sampling Theory, Survey Design, and Computer Science are extremely helpful to hone the expertise required from a candidate who has opted for this programme.

The MSc in Economics that we offer is very quantitative in nature and approach. The programme provides an all-inclusive path to meticulously understand and apply Economic Theories and their application to Economic Modelling and Forecasting in the real world.

3. What is the course content like?

The basic focus of the SSE course content is to train students who apply economic concepts in real life and other inter-disciplinary specializations. The curriculum is designed keeping the employability of the candidate in sectors such as public and private enterprises, banking and financial services, government, consulting, academia and NGOs in India and abroad. SSE is currently offering modules in Advanced Economic Theory, Econometrics, International Economics, and Development Economics, Urban Development etc.

4. What kind of specializations can the student take up?

International Trade

The specialization in International Trade broadly explores the principles of economics related to the causes and effects of trade beyond geographical and political boundaries. This, in turn, explains the patterns and consequences of transactions and interactions between the inhabitants of different countries, including trade, investment and migration and other factors. Parts of the specialization also involve investigating the consequences of trade activities on economies in perspectives of resources, preferences and institutions. This specialization module highlights the angles of politico-economic policy variables on world economies, as well, particularly in the post-globalized era. (Kindly refer to the Programme Structure which will give you a holistic view about the courses taught under the specialisation).

Development Studies

Development Studies include the broad areas of economics that explore the causes, needs and processes of development in low-income countries. It also involves the study of the structural change phenomena caused by the advancements that these economies witness in the course of their growth process. The specialization focuses on theories and methods, both spatial and temporal, which help in forming policies at the domestic and international levels to achieve optimal social ends. The module also concentrates on certain aspects and issues of economic development across post-war periods, spanning right up to the liberalized and globalized new world economies. It is geared towards a multidisciplinary approach that encompasses social and political angles, other than pure economic concerns. (Kindly refer to the Programme Structure, which will give you a holistic view about the courses taught under the specialization).

Urban Development

With cities being the main contributors to national income, it is impossible to bypass the manner in which cities and the process of urbanization is unfolding in India. It is a multidisciplinary course than encompasses issues related to urban development and planning, demography, urban economics and finance, infrastructure, informal sectors,

poverty and sustainable livelihoods. Issues related to urban sociology, energy and environment, capacity building of urban development bodies are also discussed, as are experiences in urban development.

5. What kind of students are we looking for?

The M.Sc. Economics degree is intended for those students who desire a rigorous higher education and training in the field of Economics with the aim to pursue career paths that include analytical, empirical, financial, advisory, managerial and research oriented work at positive and normative levels.

6. What are the instruction styles?

Other than the standard discourse method, case study and colloquium oriented methods will also be employed as pedagogical methodology. Apart from this, various workshops, conferences and guest lectures will be organized on a regular basis to enhance the student's understanding and sharpening of the required academic and industrial skill-sets. The students at this level are expected to read related matter and come to class so that each session becomes more interactive. The aim is to create a dynamic learning environment and enhancing the analytical and application capability of the students.

1.2. *Placements Overview*

The Placement Cell, guided by a set of rules and principles strives to maintain warm relation with firms. Preparing the recruitment schedule for the year, inviting firms for pre-placement talks on campus followed by final placements, and overseeing the process to its end are responsibilities that the Placement Cell endeavors to carry out successfully.

The Placement Cell at Symbiosis School of Economics works in close coordination with its faculty advisor and provides a platform for students seeking recruitment to interact with possible recruiters on the campus.

Final Placements at SSE is considered as an important dimension of educational attainment and therefore is accorded high priority. The Director and a team of highly qualified senior faculty oversee the implementation of the placement related work agenda.

Over the last three years, in particular, SSE has consciously developed, nurtured and forged long-lasting collaborations and relationships with a number of research institutes, corporate firms and NGOs and development agencies. These organizations have offered internships and final placements to our students. It is a conscious effort on the part of SSE to expand the network of association, to reflect synergies between the academic training and research/industry needs. While the placement process is on for the current semester, one may be interested to have a glimpse of the same for the previous batch of 2015-16 who had done their Masters at SSE.

Our alumnus' achievements are noteworthy. They represent SSE ,either as an employee/for higher studies/interns, in many national and internationally reputed organizations. To mention

a few i:Indian Economics Services, UNDP, Ministry of Finance (GoI), Deloitte, Ernst & Young, A C Nielson, Thomson Reuters, ValueNotes, Equitas Small Finance Bank, Haqdarshak, Public Affairs Centre, IndusInd Bank, ICICI Lombard, India Development Foundation, Indian Institute Human Settlements, Indian Institute of Management, Administrative Staff College of India, National Institute of Public Finance and Policy, Zephyr Financial Publishers, Institute for Social and Economic Change, University of Rochester, Stanford University, Public Affairs Centre, HDFC Bank, CII, ICRIER, NABARD, etc.
